## Student Spotlight!

In this painting it looks like they are going west. What makes me say this is because I can see wagons, horses, farmers, sheep, calf, land and mountains. This compares to Colton because his Ma, Pa, and sisters were going west. The people in the painting are taking a break going west. I know this because you can see the land getting closer. The reason people are doing this is because they want a new life for them and their kids. And Colton's family wanted a new life too, that's why they are so eager to go to the west. In the picture they are talking about a break and Colton and his family were taking a break before. and more jobs, and opportunity, They would not do this just to show how cool they are, they want to be rich, have more land, and bring their religions to the Native Americans.
