

Rediscover Your World Through Books

Fun Family Activities

Reading together as a family is one of the most important ways to support your student's continued learning and growth during the summer and all year long. Add to the fun with activities that start or end with a good book!

Rediscover Your Family

Write a family story book together. Students can write what they know about their family. Adults can write their own stories about growing up. Everyone can add drawings and pictures to make their stories come alive. Read books in myON to find out how other people have shared stories about their families and cultures.

Finding Out About Your Family History (Grades 1–3)

Suggested Books

Hamid's Story: A Real-Life Account of His Journey from Eritrea (Grades 3–4)

Siblings, Curfews, and How to Deal: Questions and Answers About Family Life (Grades 3–9)

Rediscover Your Community

Help your student create their own adventure story that is set in your community. They can use their imagination to start the story. Ask each family member to add to the story using your surroundings—your home, a park, or places you visit together. Read books on myON for some story ideas.

Transportation in the City (Grades 1–3)

Suggested Books

The Dangers of Dog Walking (Grades 2–4)

The Guys' Guide to Making City Life More Awesome (Grades 3–9)

Rediscover Other Cultures and Countries

Encourage your student to learn more about cultures and countries they are already aware of and are interested in exploring further. Read books about holidays, music, food, and more. Other resources may include magazines, newspapers, or authoritative online sources. Discover new cultures and countries through reading, too!

Fun Family Activities

Rediscover Foods

Write down a recipe for one of your favorite foods with your student. Include ingredients, instructions for preparing and cooking it, and special ways you plan to serve the yummy dish. Then follow your recipe and enjoy the treat together. For inspiration, explore cultural dishes, popular recipes, and other books about delicious foods.
