

Livius has created a 100% free AP Exam prep program that runs 4 weeks during the month of April. Our 6 classes will do a review of curriculum covered but will also focus on prep strategies for excelling on the exam. There is a difference between reviewing the curriculum & being strategically prepped for the exam. Our class will cover both.

Again, 100% free, no strings attached. Please see the schedule below and landing page to enroll.
