

## Spring 2020 Naviance Tasks

In the fall of the 2019-2020 school year, PPSD students were asked to record short- and long-term *academic, career* and *social/emotional goals*.

As detailed below, instead of creating 3 sets of goals, students will need to take the particular RIDE ILP goal your student has already created and plug it into Naviance as detailed in the charts below. The Naviance activities required by RIDE for this school year are accessed by students according to grade level following this process:

1. Students go to their school site to access Clever through their Google Apps link found at the top left of their screen.

2. Students then select the Naviance app from their Clever portal (apps may vary by school):

3. Once students are in Naviance, they will see their grade-specific tasks in their Important To-Dos and Tasks tile.

### Important To-Dos and Tasks

4. The specific tasks are listed on the next page.
5. You can access Goals with Demo Naviance Student by clicking My Planner and selecting Goals to access the CCLR SMART goals.
6. You can access Surveys with Demo Naviance Student by clicking About Me, Surveys Not Started.

Remember, you can test out the student view using your Demo Naviance Student profile without changing any data!
