Interview with Mrs. Bothelo by Room 213

How long have you been an administrative assistant?

I have been working in the office for 15 years.

Where do you live and do you have any children?

I am the proud mother of two sons one of which lives in Connecticut and is the father of my three grandchildren, Kayla-11, Stephen-4, and Shawn Jr-2. The other son lives in Oklahoma.

Have you only worked in the Providence School System?

No, I have worked at Bryant University for 10 years in the Athletics Department and previously to that at a non-profit in Woonsocket, Rhode Island.

What is the best thing that you like about your profession?

I loved working with the K-5 students. These students are the sweetest, most wonderful people to know! I want everyone to know how much I loved working with you. It has been a pleasure and I will remember all of you!

Notes from Nurse –

Mrs. Anderson RN:

HAPPY FALL

With colder weather more illnesses occur. It is important that parents or an emergency contact can be reached if your child should become sick. Please make sure all emergency phone numbers are up to date. Please send any changes to school immediately.

WHEN TO STAY HOME

While attendance at school is important to your child's success, there are certain times that your child should stay home. They are as follows:

- An increase in symptoms of coughing, sneezing or runny nose (especially if nasal drainage changes color from clear to yellowish-green).
- Any fever, (before returning to school, children must be free of fever for 24 hours without the use of any fever reducing medicines, such as Tylenol or Motrin.
- Vomiting and/or diarrhea, your child should be tolerating their regular diet, before returning to school.

You know your child best of all. Please use your own judgment if you feel your child should stay home even when they want to come to school. Please don't hesitate to call me for any questions!
