

Classical High School Summer Reading 2018

Advanced Placement Psychology Summer Reading Assignment

Assignment # 1

Students are to read *The Boy Who Couldn't Stop Washing* by Judith Rapoport, and they will be given an essay test during the first month of school.

Assignment # 2

Psychology has seven major subfields or approaches. These approaches include the biological, evolutionary, psychodynamic/psychoanalytic, behavioral, cognitive, humanistic, and social-cultural.

- Using *Chapter One* of the Myers Text uploaded to <http://www.cacciassocialstudiesclass.weebly.com> **and** Other reliable sources from the internet
- Write a 2 paragraph overview of each perspective above and include the following
 - The major psychologist(s) associated with each perspective,
 - Its major assumptions and beliefs,
 - A general overview of how the approach would be used to treat psychological disorders and/or promote positive mental health.

This assignment will be collected during the second week of school before the essay test regarding *The Boy Who Couldn't Stop Washing* is taken.
