

Addendum #2

REBID- Student-Centered Schedule Analysis/Implementation at La Salle Academy (Non Public)

Issue Date: Wednesday, October 9, 2024

Bids Due: Thursday, October 17, 2024 at 1:00PM

-
1. Is there an estimated budget that we should work within to accomplish the goals of this RFP?

We cannot provide a budget to any bidders, please review the scope of work and submit a bid with the amount you see fit for the scope of work

2. We have extensive experience with other scheduling software, but not Blackbaud. We attempted to take the courses on Blackbaud University to gain experience with the platform, specifically the two courses under "Scheduling Manager", but you have to be a registered user (a school using the system) to get the training. Can a vendor take the training after winning the RFP to have that count as experience using Blackbaud? A school administrator could get them access.

Yes.
