The Receiving Party shall not disclose Confidential Information of the Disclosing Party to any third parties except as otherwise permitted hereunder. The Receiving Party may disclose Confidential Information of the Disclosing Party only to those employees, subcontractors or agents who have a need to know such Confidential Information and who are bound to retain the confidentiality thereof under provisions (including, without limitation, provisions relating to nonuse and nondisclosure) no less restrictive than those required by the Receiving Party for its own Confidential Information. The Receiving Party shall maintain Confidential Information of the Disclosing Party with at least the same degree of care it uses to protect its own proprietary information of a similar nature or sensitivity, but with no less than reasonable care under the circumstances. Each party shall advise the other party in writing of any misappropriation or misuse of Confidential Information of the other party of which the notifying party becomes aware.

e. **Exclusions.** Notwithstanding the foregoing, this Agreement shall not prevent a party receiving a judicial order or other legal obligation from disclosing Confidential Information of the other party, provided that the other party is promptly notified and cooperates to allow intervention to contest or minimize the scope of the disclosure (including application for a protective order). Otherwise, neither Company nor any of its personnel may release confidential data or results if such data or results include individual person, District- or state-identifiable data or results, either directly or inferentially, unless agreed by the parties in writing on a case by case basis. In the event of a Security Incident, Company shall investigate the Security Incident, identify the impact of the Security Incident and take commercially reasonable actions to mitigate the effects of any such Security Incident. If the Security Incident results in a Security Breach, a documented, unsecured disclosure, access, alteration or use of the data, not permitted in this Agreement, which poses a significant risk of financial, reputational or other harm to the affected End User or the District, Company shall, (i) timely provide any notifications to individuals affected by the Security Breach that Company is required to provide, and, (ii) notify District of the Security Breach, subject to applicable confidentiality obligations and to the extent allowed and/or required by Applicable Laws. Except to the extent prohibited by Applicable Laws, Company shall, upon District's written request, provide District with a description of the Security Breach and the type of data that was the subject of the Security Breach.

The parties will each cooperate fully in resolving any actual or suspected acquisition or misuse of Confidential Information.

Title
Providence Public School District

Request for Proposals

Website Design and Content Management System

2022-2023

Funding Source (Contingent on Funding): Local
I. Background

The Providence Public School District (PPSD) serves approximately 24,000 students attending our 39 schools. PPSD employs more than 3,200 professionals who work in and provide support to our schools, which include 21 elementary schools, 7 middle schools, 9 high schools and 2 public district charter schools. Of our employees, approximately 2,000 are educators, and more than 600 others directly support students and families in our schools.

Our schools are diverse learning communities. Approximately 68% of our students are Latinx, 15% Black, 6.5% White, 4% Asian, 5.5% Multi-racial and 1% Native American.

Approximately 31% of students are multilingual learners, and about 16% of students receive special education services. Approximately 55% of students come from homes where English is not the primary language spoken. Combined, our students and families speak 55 different languages and hail from 91 countries of origin.

II. Scope of Services:

Providence Public Schools (PPSD) flagship website, providenceschools.org, is the digital gateway to Providence Schools and is its primary brand statement. For many, the website will be the first experience and interaction with the district and is a key communications tool. The website functions as a portal to the district’s elementary, middle and high schools. The site also hosts content for district-wide initiatives, including Family and Community Engagement, school fairs and PPSD Cares. PPSD Communications Department, the district’s central communications office, maintains providenceschools.org.

The current website was designed and developed in 2015 with templates updated at the start of the 2021-22 school year. It is hosted and designed by Blackboard.

The newly proposed site will launch on July 1, 2022.

We are seeking an experienced agency partner to design and build a first-class, modern providenceschools.org website. The new providenceschools.org website will be meet the W3C Accessibility Guidelines, be able to translate in multiple languages and be beautifully designed. We expect the new site to be built on either a proprietary CMS system or the latest version of Drupal or Wordpress.

Through intuitive navigation, the site will help diverse audiences understand the district’s structure and easily find their way to other district sites while showcasing fresh and engaging content that aligns with key district priorities:

- Engaged Communities
- Excellence in Learning
- World Class Talent
- Efficient District Systems
KEY COMPONENTS:

- User-centered design. The website serves as a resource, guide, and portal. Whether users are searching for a school website, looking for specific information about PPSD, or simply exploring, their experience should be intuitive and seamless.

- Search engine optimization. Regardless of frontend or backend, the website should continue to feature well in search engine results and remain search-friendly.

- Inviting and engaging visuals and content. Design solution must be capable of incorporating photographs and videos. Website content, from web copy to multimedia, should be compelling and narrative-driven. While we’re not asking for written content in this RFP, the design and CMS must work to showcase and elevate our content, creating a sense of unity across content of varying types, styles, and production sources.

- Inclusion and diversity. Our website will serve a broad global audience and its design, messaging, and content should reflect the diversity of the Providence community. The site must be ADA Compliant and have digital accessibility tools. The site must have an effective translation option. The ability to adjust the automatically translated content by district translators would be ideal. The main languages spoken by our families are: English, Spanish, Arabic, Swahili, Portuguese, Khmer and Haitian Creole. Documents are required to be uploaded in multiple languages as well.

- Flexible and adaptable. The website and its content will continue to evolve. As such, the CMS needs to be flexible and user-friendly to content administrators so we can most effectively enact institutional priorities and respond to user needs.

- A “mobile first” design approach. Many of our families rely on mobile phones for a web browser. Our new site structure must be a responsive design that is both beautiful to view and simple to use on any device, as well as accessible in compliance with Section 508 and W3C standards.

- “Alert” function. Our website currently has the ability to push alerts in a screen take over style. We use this for last minute alerts including no school days. The new site should have the same or similar function.

- Easy CMS system. We do have some website maintainers who code in HTML so we would like the ability to edit html and/or CSS. The majority of our website maintenance crew need a WISYWIG editor.

- Intuitive Navigation. Site should have at least two levels of navigation.
Compatibility. Pages must render completely in the latest version of Chrome, Safari, Firefox, Edge, IE, etc.

Microsites. The design solution will include these unique templates for microsites:

- one flagship template for District administration/departmental use;
- one template for the twenty-one (21) elementary schools;
- one template for the seven (7) middle schools;
- one template for the nine (9) high schools;
- a template that can be adapted for special projects mini-sites like PPSD Cares.

Integrated Calendars. The website solution must have ability to integrate calendars. Each site should have its individual calendar, but the district site should have the ability to push to all elementary schools, all middle schools, all high school, and/or the district as a whole.

Social media Integration. The website solution must have the ability to refer to the branded social media sites (Facebook, Twitter, Instagram). Integration between social media and the web may be considered as a design solution, so please include details and recommendations in your proposal. Currently we use embed code to place twitter feeds into the site.

Training. Initial training on how to use the new web designs, with up to 5 on site or virtual sessions for basic use and 2 on-site or virtual trainings for intermediate/advanced users and should be included in the quoted pricing.

Hosting and performance. Servers and data centers used to host the websites must use industry best practices for security and your existing hosted websites must have had a minimum of 99% uptime over the last 12 months. We expect a minimum of 99% uptime for our websites and that they maintain availability and responsiveness during large spikes in traffic.

Ongoing support. The Contractor will provide support in a timely manner as required by PPSD through phone, email, remote connection, and/or onsite meetings when necessary.

Security. Backup of all website content on a remote server that is accessible to restore in the event our site is hacked.

Backend Maintenance. Routine backend maintenance performed by host.

Content Migration. Migration of content from the current platform may be required.
**Staging.** Currently, we do not have the ability to stage pages for approval. If possible, we want the ability to review pages before they go live.

- Third party links. Providence Schools uses Skyward Students Information Services, Frontline Education, Microsoft Outlook and Electronic School Board. These site must be able to connect to these platforms via a button in the site.
- Third party integration. We also need to integrate Let’sTalk, our customer service platform, into the site. It is a pop-out tab that stays on every page in the site.
- News/Blog feature.
- Website performance. Integrated google analytics. Currently our analytics show:
- Forms. Ability to incorporate electronic forms and surveys.
- Structured user permissions. The district’s preferred website model calls for a few super users with the ability to work throughout the site. And other users whose permissions are defined-those managing department pages or school sites who do not have access to other areas of the site.

### III. Proposal Requirements

Please submit a written proposal including:

- a. Number of years’ company has been in operation
- b. Examples of clients and 3-5 relevant references
- c. Website redesign examples, link to case study or website URL
- d. Number of individuals that would work on website project – roles, responsibilities, experience
- e. Any additional resources needed such as subcontractors
- f. Overview of process
- g. Number of hours and general timeline from start to completion
- h. Cost breakdown

### IV. Budget

- a. Our projected budget is between $60k-$80k

### V. Timeline for Implementation and Contract Duration
The district intends to award a one-year contract with two one-year options as a result of this solicitation. The new site must launch on July 1, 2022.
