

Updated Guidance for STUDENTS AND STAFF IN PRE K-12 SCHOOLS

Updated October 2022

You have symptoms consistent with COVID-19:

- Stay home
- Contact a healthcare provider
- Get tested
- Return to school if test is negative and symptoms resolve.

You **test positive** for COVID-19, regardless of vaccination status:

- Stay home and isolate for at least 5 days.
- Return to school on day 6 if you **do not** have symptoms and have been fever-free for at least 24 hours (*without using fever reducing medication*).
- If you **do** have symptoms on day 6, stay home and continue to isolate until your symptoms improve and you've been fever-free for at least 24 hours.
- Wear a well-fitting mask at school, at home and around others for an additional **5 days**.
- Continue to wear a well-fitting mask at school and at home for the remainder of the **10-day period** from symptom onset or COVID test date.

You have been **identified as a close contact** of a positive case...

... and you are vaccinated with no symptoms:

- Attend school;
- Self monitor for **5 days**; and
- Wear a well-fitting mask around others for **10 days**.

...and you are not vaccinated with no symptoms:

- Attend school;
- Self monitor for **5 days**; and
- Wear a well-fitting mask around others for **10 days**.
