

Addendum #1

Contract Services for Culturally Responsive and Sustaining Education Professional Services

Issue Date: January 4, 2021

Bids Due: Wednesday, January 13, 2021 at 1PM

- Under the scope of work, bullet #1 describes workshops and professional learning that are “educator-facing.” Which professional groups are you considering within that category? For example, should we expect only classroom teachers, or will groups such as principals, school-based social workers, etc. be required to attend?

Classroom teachers, school based personal, and administrators

- How many people are you envisioning would attend each workshop?

Up to 30 per workshop/series

- Is it understood that all contract services will be delivered virtually?

Yes, unless public health conditions note otherwise

- Is the critical friends group a self-selected subgroup of educators?

Yes.

- Is it fair to assume that these four workshops are designed to build capacity in the existing CRSE framework, ultimately to provide real time insights and needs for the revised version?

Yes

- Do you have students and parents already identified or would that be the work of grantee?

No we do not have that group curated yet.

- We understand that there is a current framework for CRSE based on Zaretta Hammond’s work. Will the original framework serve as a foundation for the revised framework?

The current framework is a *teaching* framework. That framework has limitations as to how CRSE expands to the broader educational ecosystem. It will fold into the broader CRSE framework.

- Are there existing aspects that you and other leading PPSD members would like to keep?

We'd like to keep most aspects of the framework now as we are deepening the teaching framework within the district. We do not wish to change it.
