DISTRICT GOALS

Goal 1: Student Achievement

Increasing student achievement through a consistent and comprehensive focus on teaching and learning.

Goal 2: Building Capacity through an Infrastructure of Support

Creating capacity within the system to support and nurture a continuous learning environment focusing on student achievement.

Goal 3: Strengthening Parent & Community Engagement

VISION

The Providence School District will be a national leader in educating urban youth.

MISSION

The Providence Public School District will prepare all students to succeed in the nation's colleges and universities and in their chosen professions.

CORE VALUES

Respect, equity, excellence, accountability, and appreciation for our diversity.

Providence School Board Beliefs and Commitments

We believe that all Providence students can and must learn at high levels, reach their full potential, and succeed in school and in life.

We believe:

The potential to learn is neither fixed at birth nor determined by race or socioeconomic status; it develops over time with opportunity, challenge, and effort.

- Success includes not only academic achievement, but also social, emotional, physical, psychological, and moral development.
- Success means contributing to our society and participating in civic life.
- Schools must cultivate a love for learning, teach students how to learn, and help students develop their talents.
- Disparities in academic achievement along racial and economic lines are morally intolerable.
- Expert instruction, adequate time, and the right support can help every student succeed.

We commit to creating the conditions for all students to learn at high levels and to their full potential; we commit to closing the achievement gap.

We will:

- Challenge every student and hold all students to the same clear and high expectations.
- Create active, vibrant learning communities with strong academic, co-curricular, and extracurricular opportunities.
- Measure student success by what is learned, not just by what is taught.
- Provide students with multiple opportunities and options to succeed.
- Create trusting and respectful school communities.
- Promote student health and wellness.
- Form strategic partnerships with external organizations to enhance student support services.

We believe Providence teachers and Providence schools can and must have a positive influence and a profound effect on our students' lives.

We believe:

- The student-teacher relationship is central to learning.
- The effective teacher assumes responsibility for what happens in the classroom and accountability for what each student learns.
- Ultimately it is the teacher who makes the difference between student success and failure.
- Schools exist to support the student-teacher relationship; the district exists to support schools.

We commit to organizing our schools and all our resources to support the student-teacher relationship as the primary factor in student success.

We will:

- Have a highly effective teacher in every classroom.
- Have a strong instructional leader as principal of every school.
- Set policy and allocate resources by asking how our decisions will help students learn.

We believe Providence schools can and must be good places to teach and to learn.

We believe:

- Schools must be safe, caring, and orderly environments that nurture effective teaching and learning.
- Schools must value diversity among students, staff, and families.
- Students, staff, parents, and community partners must demonstrate truthful, moral, and nondiscriminatory conduct.

We commit to creating schools that have positive cultures and are housed in high quality facilities.

We will:

- Maintain attractive, clean, and secure schools.
- Renovate or replace buildings as necessary to accommodate 21st century learning and serve as community anchors.
- Hold students, staff, parents, and community partners to clear and high standards of behavior.

We believe the Providence School District can and must be a high-performing organization.

We believe:

- People and purpose drive high performance.
- We must capture the hearts and minds of our people with a clear and compelling vision for student success as well as opportunities for participation, collaboration, teamwork, and shared decision making.
- We must have visionary and distributed leadership and a relentless focus on results.
- We must deliver measurable results in return for the commitment of public resources.

We commit to organizing the Providence School Department around its core business—teaching and learning.

We will:

- Hold the entire district and everyone in it accountable for student success.
- Target resources strictly to district priorities.
- Recruit, develop, support, and retain the highest-quality personnel.
- Operate effective instructional and business systems.
- Use public resources efficiently.

We believe Providence families and the entire Providence community can and must support our students' success.

We believe:

- Families are the first teachers of our students.
- Our community has rich cultural resources to support the education of our students.
- The school system and the community are mutually accountable to one another for student success.

We commit to partnering with family and community in shaping and supporting the education of our students.

We will:

- Welcome and engage families and community as valued partners and advocates for education.
- Establish good home-school communications by providing friendly ways for parents to contact us and by communicating with families in clear, straightforward language.
- Provide a range of ways for families to participate in the education of their children at home and in the schools.
- Partner with the community to connect schools, students, and families with community assets.

Strategic Direction Policy

Purpose

To articulate the School Board's Strategic Direction to drive rapid and significant improvements in student achievement consistent with the School Board's statement of Core Beliefs and Commitments.

Issue

Providence must create a high-performing school district that educates all students to high standards and eliminates the achievement gap. Creating a high-performing school district requires that we redesign all of our systems to directly and effectively manage our core business of teaching and learning.

We must make fundamental changes from our current loosely coupled system of schools to a tightly integrated high-quality school system that provides equity and access to all.

We must do things differently to meet the needs of our students. We are not satisfied with incremental improvement and must create system-wide coherence and stability that effectively supports our students, teachers, administrators, parents, and school community.

To bring about dramatic positive improvements in student outcomes and to enact the School Board's Core Beliefs and Commitments, we must adopt a Strategic Direction that articulates an organized, coherent framework for an Aligned Instruction System. Providence's *Aligned Instruction System*, addresses the following key components for managing teaching and learning in our schools:

Curriculum and Instruction

- Explicit content and performance standards for students preK-12
- Demanding, relevant curricula directing preK-12 instruction
- Research-based instructional programs, strategies, and tools that support preK-12 curricula
- Instructional practices and strategies for teaching the curriculum

Comprehensive Assessment Framework

- Monitoring system for measuring progress to guide school improvement
- Systematic evaluation to know that programs are effective

Professional Development

- Professional development model based on research on adult learning and national professional standards
- On-going professional development to support educators in implementing evidence-based instructional strategies, practices, and program

Position

An *Aligned Instruction System* is a set of coherent organized strategies designed to create dramatic positive improvement in student outcomes. The design is enhanced by collaboration and engagement with educators, community partners, parents and students. The School Board expects the Superintendent to include these stakeholders in the development and implementation of the Aligned Instruction System. An Aligned Instruction System clearly articulates how schools and departments are to implement a standards-based school design through an aligned system of:

Curriculum and Instruction

1. PreK-12 Content Standards will establish clearly defined expectations for all students, helping to answer the question, "What do students have to learn?"
2. PreK-12 Performance Standards will determine performance expectations for content standards, helping to answer the question, "How well do they have to learn it?" Performance standards depend on content standards in the sense that they articulate levels of proficiency.
3. A demanding, relevant curricula defined and adopted by the School Board will direct preK-12 instruction in all content areas.
4. The curriculum must include a clearly established, system-wide set of goals and objectives adopted by the School Board and implemented in all schools within the district. The district must have a long-term plan for developing curriculum. Further, development must be contextually responsive to national, state, and other expectations.
5. Instruction, the way in which the curriculum is presented, will focus on the needs of students. The district will identify and use instructional practices and strategies for teaching the curriculum that are grounded in current research. These practices and strategies will provide for key elements of instruction. The district will use high-quality, research-based instructional programs and tools. These programs and tools will support schools in the consistent and timely delivery of the preK-12 curriculum.

Comprehensive Assessment Framework

6. Through assessment, the district will ensure informed decisions about curriculum and instruction. An effective assessment framework will formally evaluate student achievement in every course of study taught at every grade level. Comprehensive student performance data must be available to the board, administration, faculty, students, parents, and community to sufficiently document how students are progressing. A comprehensive assessment framework will require a comprehensive student information system.
7. A monitoring system will measure the impact of adult actions on student achievement. This system must be based upon a framework where district and school improvement efforts are specified, regularly measured, evaluated, and lead to positive change.
8. Systemic Program Evaluation will serve three purposes: (1) to determine if the curriculum meets district standards; (2) to determine that student achievement or

curriculum objective meets or exceeds district expectations, and (3) to determine that the instructional program is effective in meeting curriculum objectives. The district must have a board-approved, comprehensive evaluation plan. All programs in the district will undergo periodic program evaluation by external agencies/individuals, internal committees or specialized staff. These evaluations will result in reports to the School Board and community. Decisions regarding program continuation, expansion, or elimination will be based on documentation included in these reports.

Professional Development

9. The district will implement a Professional Development model based on research on adult learning and national professional standards. The model must address different levels of adult learners to better prepare district teaching staff to be highly effective, as well as “highly qualified.” The model will support consistently focused professional development planning that is aligned to district improvement efforts, developing and implementing curriculum, and efforts outlined by the comprehensive assessment framework. This consistent focus of professional development must also be developed into a comprehensive plan of action within to foster personal growth in a clearly articulated fashion. The district will use this model to develop and implement a comprehensive professional development system that includes job-embedded coaching, daily monitoring of teaching and learning, and on-going opportunity for continuous improvement.

All other district systems—budget, operations, technology, human resources, and management—must be aligned to support Providence’s Aligned Instruction System. Using the best change management techniques, district leadership must foster a district culture that embraces the district’s Aligned Instruction System. There must be links between achievement goals for students, duties of district staff and personnel evaluations.

Providence’s Aligned Instruction System is not envisioned to prescribe all elements of instruction. The intention is that teachers be given freedom to teach within an environment that trains, supports, and promotes evidence-based practices and expectations for quality instruction. Consistent with this intent, administration will, as needed, intervene, prescribe required professional development, monitor, assess, and issue directives regarding professional practice. Chronically underperforming schools will require more prescription surrounding instructional programming and pedagogical strategies and greater administrative intervention in an effort to support principals and teachers to improve student achievement.

Desired Outcome

An aligned instruction system will result in a school system that is organized around its core business of teaching and learning where the entire district is accountable for student success.

The Superintendent is responsible for designing the regulations to implement the Aligned Instruction System. Pursuant to this, we expect the Superintendent to bring forward policy recommendations and budget proposals for Board consideration.

Significant district redesign may be necessary to align all district systems with the instructional management systems.

Establishing and operating an effective, aligned instruction system is not simply making the current system work better. It is a fundamental change from a loosely coupled system where curriculum, assessment, and what happens in the classroom are left to chance, to a tightly integrated instructional system having clear and specific goals for teaching and learning.

The roles and responsibilities of nearly every adult and nearly every process related to instruction will need to be reviewed and possibly changed. Teachers, administrators, parents, and community leaders must understand and support the Aligned Instructional System.

Accordingly, effective change management leadership by the Superintendent, supported by a comprehensive internal and external communication system, will be required. The Superintendent will provide clear guidance regarding decision making at the district, school and classroom level with respect to the key components of the Aligned Instruction System.

Budget Development Process and Timelines

The development of the district's spending plan is a year-long process. The process for the fiscal year ending June 30, 2010, began in November 2008 when schools and departments began preparing budgets for the upcoming school year.

The Providence School Department's local operating budget is prepared at the school and department level, and submitted to the Superintendent.

- The Superintendent, with appropriate staff, reviews the requests and submits a budget proposal to the School Board that will work to accomplish the district's goals, and operate within the ever-present fiscal constraints of the City.
- The School Board may approve the Superintendent's Budget Proposal as submitted or make any adjustments it deems necessary.
- The Board is required to submit an approved school budget to the City Finance Director for inclusion in the Mayor's Budget Proposal.
- The Mayor's Budget must be submitted to the Providence City Council on or before May 1 for review, adjustments, and approval on or before July 1.
- The Providence Home Rule Charter gives the Mayor the right of veto in accordance with particular articles and sub articles of the document.
- If the City Council allocates less than the School Board's proposed budget, the Superintendent recommends changes to close the gap, the School Board adopts a final budget to fit within the City's allocation to the schools, and the School Department submits the final budget back to the City Council for final approval and inclusion in the City's budget (adopted as an ordinance).

Along with the budget, the School Board must submit an employee classification plan that shows the titles and number of every employee within the system. This plan is also adopted as an ordinance, and any changes to the plan require a resubmission and change to the ordinance. Reorganizations that result in new or deleted positions require changes to the employee classification plan and ordinance.

All federal and restricted state funds are included in the district's Consolidated Resource Plan (CRP). Districts submit this plan to the Rhode Island Department of Education by June 1 for the fiscal year beginning July 1 and may amend this application one time during the fiscal year, in January.

An updated five-year capital plan is approved early each calendar year and submitted to the Providence Public Building Authority, which issues bonds for school construction.

Resource allocation within the local budget is largely nondiscretionary and is determined by contractual commitments for staffing levels, salaries, and benefits; by contracts for outsourced services for transportation, food services, and facilities maintenance and

repair; by state mandates including special education requirements for staffing levels, support to charter and nonpublic schools; and by debt obligations. Discretionary funds include funds for such things as staff outside collective bargaining units, maintenance, textbooks and educational supplies, furniture, and educational equipment. Some discretionary funds are allocated centrally for district purposes. Individual schools receive a per-pupil allocation from discretionary funds.

Federal funds, restricted state funds, and private grants are allocated to accomplish district initiatives consistent with the intended uses and restrictions on these funds. These funds are allocated through several mechanisms, including a comprehensive needs assessment based on student achievement data and systematic classroom observation of pedagogy, as well as comprehensive feedback from principals, teachers, students, parents, and community members.

Budget Timeline

The development of the local budget is a year-long process that gathers and generates a tremendous amount of information. Information about the budget is provided throughout this process.

Budget Timeline	
DEADLINE DATE	ACTION
November 17, 2008	Budget packages sent to schools and administrative offices for all funding sources
December 2008	Budget training for principals and administrators
January 09, 2009	All budgets (local and non-local) due in the Budget Office
January 20-30, 2009	Budget hearings with administrative departments
March 23, 2009	Superintendent's Budget submitted to the School Board
April 27, 2009	Proposed School Board Budget submitted to the City Finance Director
June 1, 2009	Consolidated Resource Plan due to R.I. Department of Education
June 2009	Meeting(s) with City Council Finance Committee to review budget & potential reductions
July 2009	Final budget approved by City Council
August 2009	Final budget adopted by the School Board.

Overview of Revenues and Expenditures

In fiscal year 2009-2010, the Providence School Department is projecting a local budget of \$325,075,600. These funds are augmented by \$60,958,047 from federal funds and grants to constitute a total spending plan of \$386,033,647.

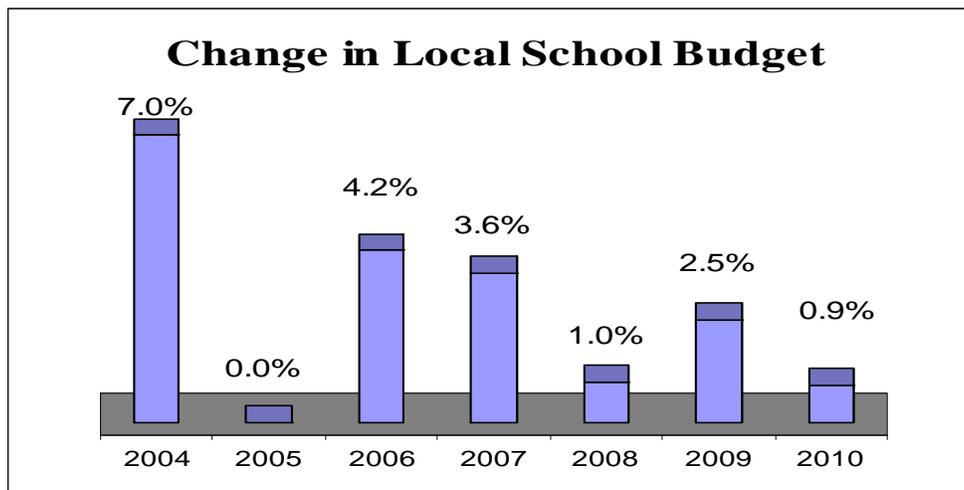

Providence School Department Operating Budget				
	FY 2009	FY 2010	Change	
			Actual	Percent
Revenues (all sources)				
Local Budget (State and City)	\$322,122,729	\$325,075,600	\$2,952,871	0.92%
Federal Entitlements & Reimbursable Grants	57,577,857	55,933,518	(1,644,339)	-2.86%
Grants	1,100,000	600,000	(500,000)	-45.45%
Restricted State Aid	5,374,595	4,424,529	(950,066)	-17.68%
Total Revenues	\$386,175,181	\$386,033,647	(\$141,534)	-0.04%
Expenditures				
Instruction	172,442,114	174,031,096	1,588,982	0.92%
Instructional Support	76,968,136	77,775,714	807,578	1.05%
Operations	66,533,963	67,735,980	1,202,017	1.81%
Other Commitments	45,324,652	41,335,419	(3,989,233)	-8.80%
Leadership	24,906,316	25,155,380	249,064	1.00%
Total Expenditures	\$386,175,181	\$386,033,589	(\$141,592)	-0.04%

Expenditures increased in all areas except Other Commitments, which reflects a reduction in a debt service payment to the City. The cause of the increases are employee salary increases (steps), employee benefits, transportation, and out of district tuition costs.

About 98% of the School Department's operating costs are determined by labor contracts, service contracts, state requirements, and health and safety requirements. Local funding (state and city appropriations) has not kept pace with increased costs resulting from growing enrollments, rising benefits, and normal increases in operating costs. Since 2001, the School Department has reduced allocations for school supplies and all discretionary items and has achieved savings in transportation and maintenance. In 2004-2005, the School Department negotiated contract changes that slowed the growth in employee benefit costs.

Providence School Department Expenditures by Category				
	2008-2009	2009-2010	Change	
			Amount	Percent
Expenditures				
Salaries	\$186,479,601	\$191,112,428	\$4,632,827	2.48%
Benefits & Other	96,329,975	95,228,605	(1,101,370)	-1.14%
Services	87,034,990	83,299,971	(3,735,019)	-4.29%
Supplies	6,387,691	6,420,777	33,086	0.52%
Equipment	1,142,289	1,145,975	3,686	0.32%
Utilities	8,800,635	8,825,833	25,198	0.29%
Total	\$386,175,181	\$386,033,589	(\$141,592)	-0.04%

The Providence School Department (PSD) **local budget** consists of city funding, state aid to education, Medicaid reimbursements, and school revenue. The PSD Local Budget is used to teach students, transport them to and from school, and maintain school buildings and equipment. It supports all school administration and other daily school operations. The Local Budget supports education programs such as ESL/Bilingual, Special Education, summer school and all-day kindergarten. All the salary and employee benefit costs for the staff required to carry out these services are appropriated in the Local Budget. The Providence School Department's local budget increased from \$288.3 million in FY 2004 to \$325 million in FY 2010. Since FY 2004, the local budget has experienced an average annual increase of 2.7%.

The **non-local budget** consists of restricted-use funds from the State of Rhode Island and the Federal Government, and grants from foundations. These funds are typically very restrictive, but give the Department the resources to conduct professional development, improve curriculum, enhance classroom activities, purchase technology, and plan and implement school reform. These funds are used to train teachers and other staff, engage the parents and community, develop and implement a standards-based curriculum and curriculum frameworks, and provide supplemental educational services

such as literacy clinics, additional assistance in elementary school classrooms, and after-school programs.

Additionally, the grants are providing the resources for initiatives such as high school reform, building leadership capacity, and establishing technology infrastructure and training.

2009-10 Non-Local Funding			
Funding Source	Millions	Purpose	District Programs Supported
Title I	\$25.6	Improving academic achievement of disadvantaged students	Middle-school coaches, READ 180, parent involvement, science curriculum, after-school programs, elementary childhood programs, elementary math coaches, K-1 teacher assistants, professional development, school-directed initiatives.
Title I School Improvement Part A	1.0	Improving academic achievement of disadvantaged students, and school improvement	Supports school improvement activities in Title I schools identified for improvement, corrective action, or restructuring.
Title I School Improvement Part G	0.2	Improving academic achievement of disadvantaged students, and school improvement	Supports school improvement activities in Title I schools at the early stages of improvement that are in required to offer Choice or Supplemental Educational Services. ³
Title II	5.4	Teacher quality Class size reduction	Elementary school literacy coaches, Kindergarten teachers to reduce class size, Professional development in mathematics and science
Title III Language Acquisition	1.0	Limited English Proficient (LEP) students	Professional development, After school and summer literacy for English language learners and mathematics
Title IV	0.3	Safe and drug free schools	Contracted services for substance abuse counselors at all middle and high schools
IDEA-Part B	7.4	Special Education	Professional development, Materials and supplies, Special programs, Preschool programs Staff
IDEA-Preschool	0.3	Special Education preschool	Special Education preschool
Perkins	1.1	Vocational, technical, school-to-work programs	Vocational, technical, school-to-work programs
Reading First	1.4	Improving literacy in 8 elementary schools	Literacy
Literacy Set-aside	3.4	K-12 literacy, administrative infrastructure to support literacy	Literacy
Professional Development	1.1	School level and district level professional development	Professional development
Food Service	12.2	Lunch program	Lunch program
DeWitt-Wallace	0.6	Leadership development	Aspiring principals program, structured supports and mentoring for principals and assistant principals, enhanced leadership of instructional coaches
Total	\$61.00		

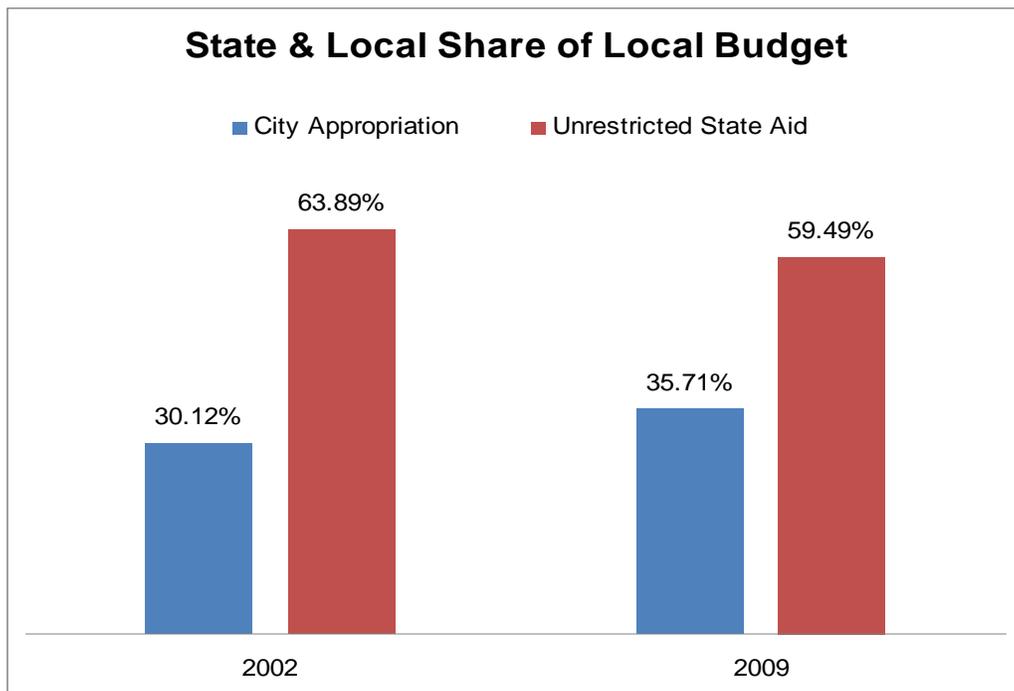

2009-2010 Federal Entitlement are estimates, financials have not been determined.

Significant Trends

Revenue Trends

Providence schools are increasingly dependent on non-local funds, especially for reform initiatives. In the past two years, the proportion of Providence schools funding from the city and state has decreased from 83.3% of the total revenues to 81.8%, while the proportion of non-local funds from the federal government, grants, and restricted state funds has increased from 15% to 17%. Because these funds are highly restricted in their uses, Providence has less flexibility in allocating its total funds. The 2009-2010 proposed budget reflects a reduction in grants from private foundations. Even though there is a reduction in private foundations, the district has had the renewal application approved for the DeWitt-Wallace grant which supports school leadership.

Historically nearly two-thirds of the Local Budget has been from the State of R.I. However, the state's share of the PSD budget has dropped over the past seven years from 64% in 2002 to 59.49% in the 2009 budget.

The State of Rhode Island divides approximately \$690M in funds among 39 school districts, several state-run schools, and charter schools in an unpredictable manner. Rhode Island has not had a state education aid formula since 1995. The General Assembly has annually allocated state education aid to local school districts making it difficult for local officials to adequately plan for education services in the coming school year. For example, Providence received an average State aid increase of less than 2% over the last three years, and received an average of 6.25% the previous three years with similar enrollment growth and characteristics. The Governor's Proposed Budget for the 2009-2010 fiscal year includes a reduction in school aid for the Providence School Department. This amount would be 57% of the revenue required to support the current local budget proposal.

State Education Aid By School District

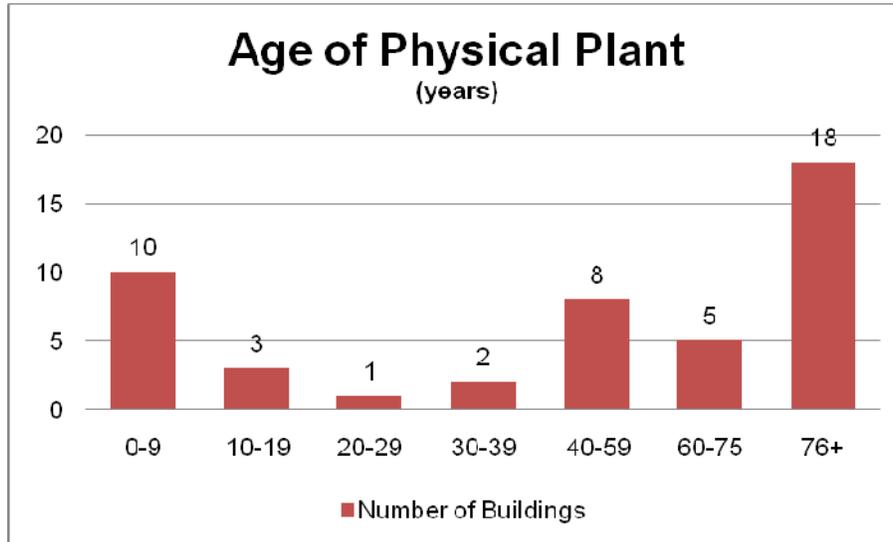

District	FY 2006	FY 2007	FY 2008	FY 2009
BARRINGTON	\$2,479,907	\$2,599,526	\$2,599,526	\$2,599,526

Source: Rhode Island Department of Education

The State continues to rely on municipal property taxes as the principal source to fund schools, bringing with it issues of tax equity among local property taxpayers as well as gaps in resources available for core instruction costs among school districts.

School Construction and Renovation

In January 2007, The DeJong facilities recommendations were received by the Mayor and Superintendent. The School Department maintains more than four million square feet of building space. The 2009-2010 operating budget includes \$27.1M to maintain the buildings. Included in the \$27.1M is \$8.8M for utilities, \$3.1M for maintenance and plant administration costs, and \$15.2M for custodial services. This allocation represents 8.3% of the Department's total local operating budget.

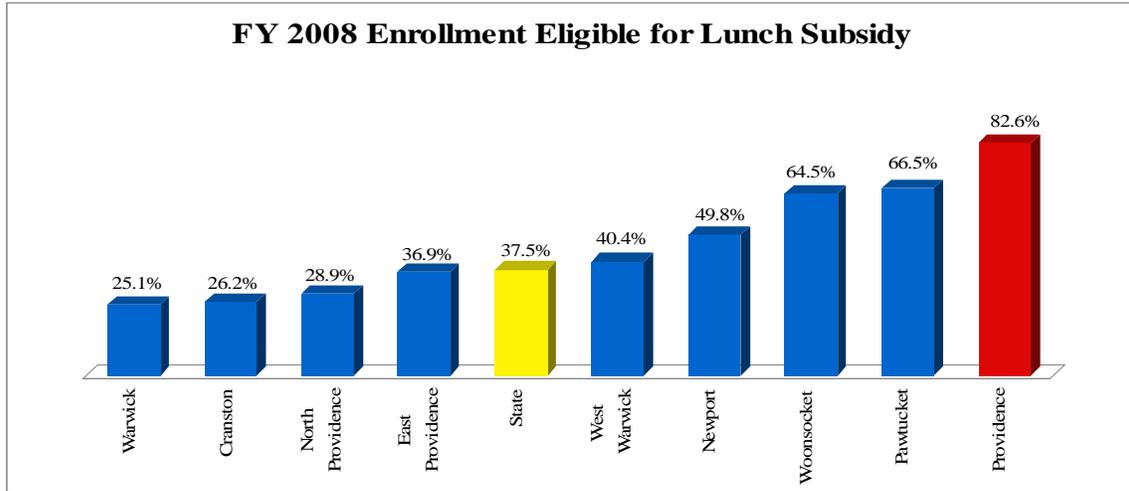

In addition to the local operating budget, more than \$9M of bond funds and \$1M in grant funds have been spent on renovation and repair in the city schools over the last seven years. Given the average age of the Department's physical plant (the average age of a Providence School Building is 50 years old, more than half are over 50 years old, and four buildings over 100 years old), and despite the best efforts of all involved, funding to maintain, repair and renovate the department's building stock have been inadequate.

A major reason the Department has not been able to adequately fund renovation and repair through bond issues is because until recently the City had been issuing bonds and accumulating debt to construct new schools for an increasing student population.

Demographic Trends

The Providence School Department is the largest school district in the State of Rhode Island. The student population is 21% larger than the combined total of the second and third largest districts (Cranston and Warwick) and makes up 17% of the students in Rhode Island public schools.

Between 1990 and 2000 (last census date) the regular education population has decreased, while the amount of special education placements and the enrollment of English Language Learners has increased. These special populations require additional resources, and in the case of special education, smaller class sizes. During the same period of time the percentage of students eligible for free and reduced lunch has increased by 45%. Over 82% of the City's enrollment is eligible for the Free/Reduced Lunch Programs. Providence has 20,148 of the 53,824 children eligible for the subsidized lunch program in the State, representing 37.4% of the State total.

Since 1991 the City of Providence has sold more than \$175M of bonds on behalf of the school system, more than 90% of the funding was used to construct new schools. Since 1996, the State has reimbursed the City approximately 73% of the cost of the bonds.

Personnel Resource Changes

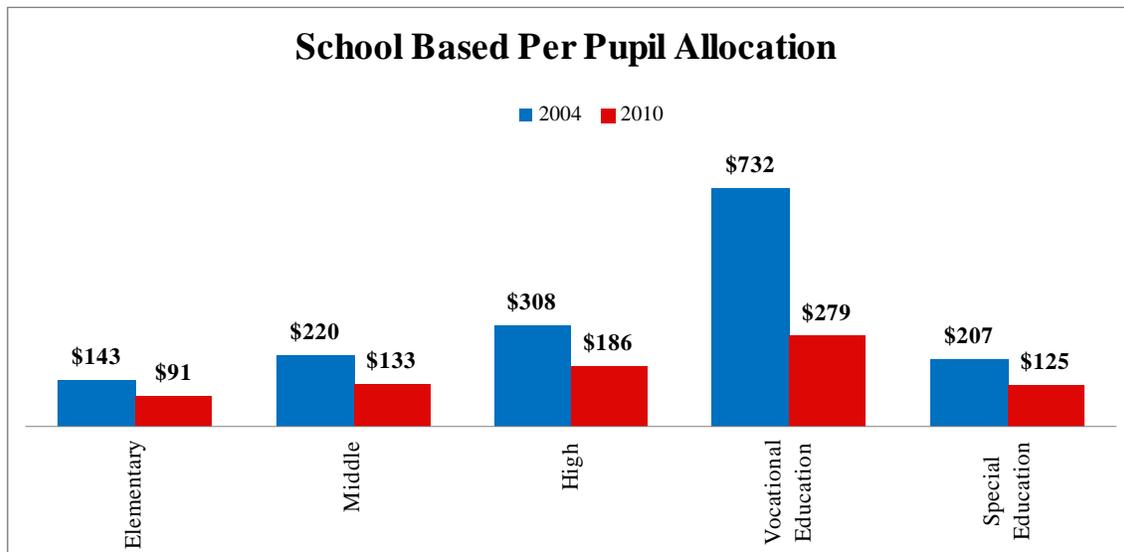

Employee Type	2008-2009	2009-2010	Change

Crossing Guards (Transferred from Police Dept in 2007)	37.0	47.0	10.0
Total	3,270.0	3,157.0	(113.0)

Property Tax Information

The Providence School Board does not have the authority to tax citizens directly in support of schools. It must ask the Mayor and City Council for funds to supplement other revenues each year. Approximately one-third of the Department's funding is from the City, which raises funds through property tax, fees, fines and permits. In fiscal year 2008, the property tax rate is \$23.70 per \$1,000 of assessed valuation. In 2008-2009 the City allocated \$124.5M of its revenue budget to the Providence School Department.

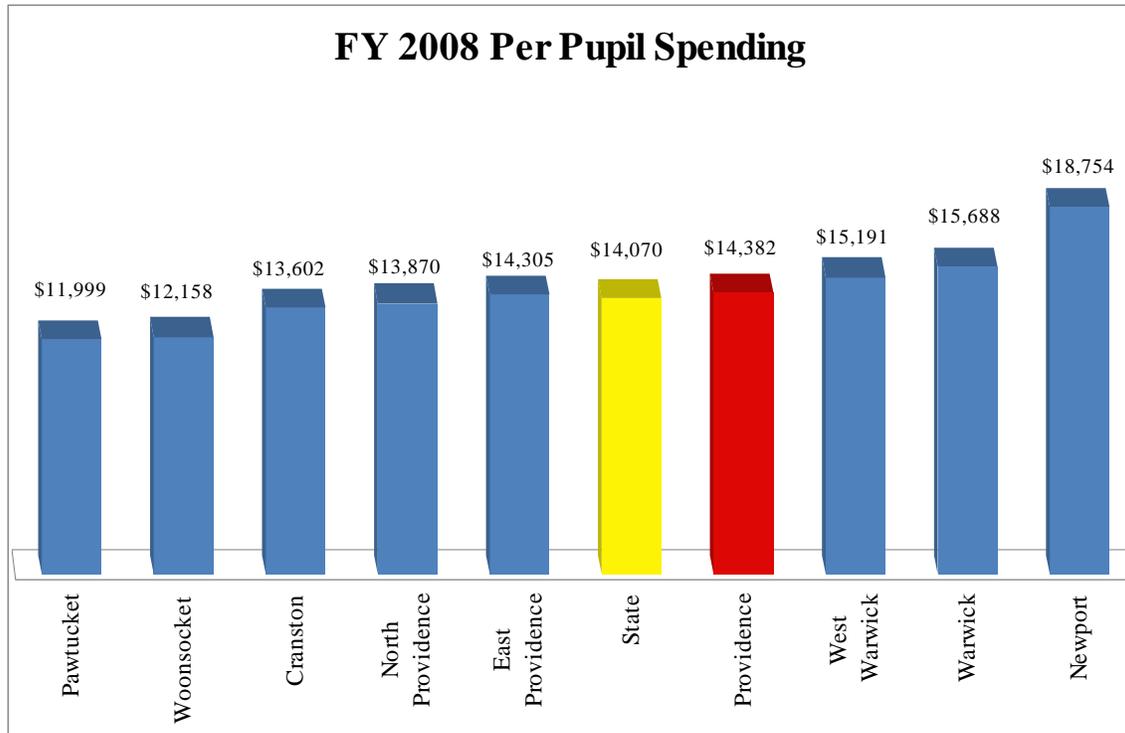

Distribution and Allocation of Funds

About 98% of the School Department's operating costs are determined by labor contracts, service contracts, state requirements, and health and safety requirements. Salary, substitutes, employee benefits, building maintenance, transportation, and administrative costs are appropriated centrally. Individual schools are allocated discretionary funds on a per student basis. These funds may be used by the school-level decision makers in the manner of their choosing. The 2009-2010 per pupil allocations are elementary \$91.00, middle \$133.00, high school \$186.00, special education \$125.00, vocational education \$279.00.

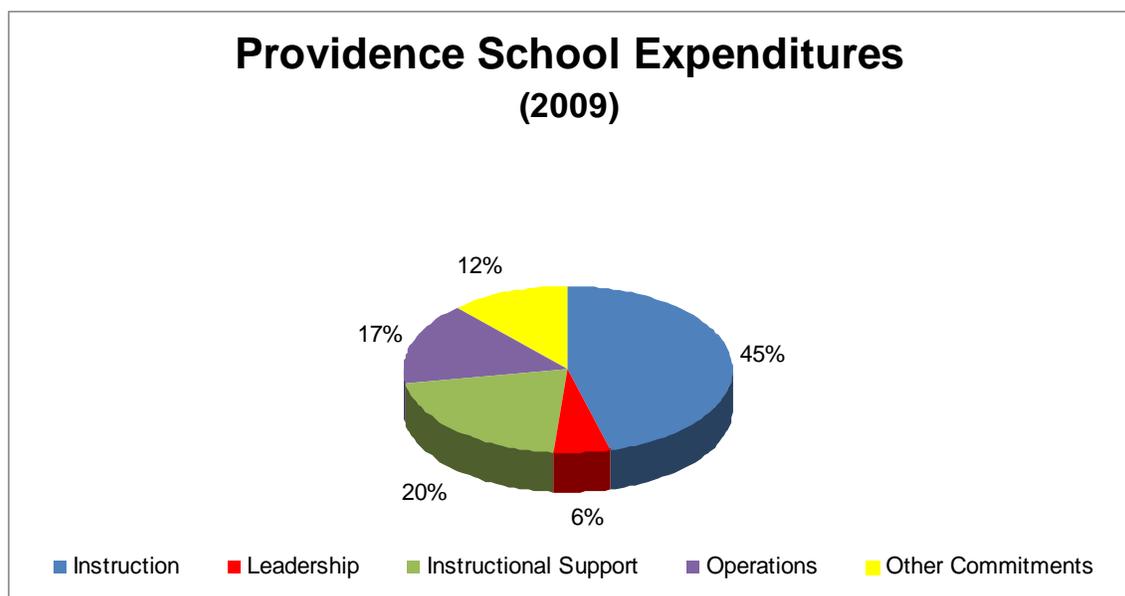

According to the Rhode Island Department of Education the PSD per pupil cost for the 2007-2008 school year was \$14,382. This figure is higher than the 2006-2007 per pupil cost of \$13,782. The per pupil expenditures includes all funding sources and passthroughs for non-public schools, not just the local budget. The 2007-2008 fiscal year placed the district above the State average of \$14,070 for per pupil expenditures. Statewide spending data comparisons are available online at:

http://www.ridoe.net/ride_insite/Default.htm.

Providence allocates 72% of its total funds to instruction, support, and leadership, 17% to operations, and 11% to other commitments. Rhode Island is unusual in requiring districts to allocate funds for transportation, textbooks, and other services for students who attend private schools. Nearly 7% of Providence's budget supports services to private school students. Salaries and benefits account for 74% of total spending. Services, including outsourced services such as transportation, maintenance, and food services, account for 24%. Supplies and equipment account for the remaining 2%.

Organizational Section

Mission

The Providence Public School District will prepare all students to succeed in the nation's colleges and universities and in their chosen professions.

The Providence School Department serves 23,328 students in grades Pre-K through 12. The district has 25 elementary schools, 4 elementary school annexes, 7 middle schools, 13 high schools, 1 center for students with significant disabilities and 2 charter schools.

The student population is overwhelmingly poor. Approximately 80% of Providence students live in poverty. Sixty percent of its students are Hispanic, 22% Black, 12% White, 5% Asian, and 1% Native American. Approximately 21% of Providence students receive special education services. Thirty percent are English Language Learners, who come from 52 countries and speak 31 languages.

The Providence School Board does not have the authority to tax citizens directly in support of schools. The Providence School Department receives funds from the State of Rhode Island and the City of Providence. Approximately one-third of the Department's funding is from the City, which raises funds through property tax, fees, fines and permits. In fiscal year 2008, the property tax rate is \$23.70 per \$1,000 of assessed valuation.

The Providence Public Building Authority (PPBA) issues bonds to build and renovate schools. The State of Rhode Island shares the costs of building and renovating schools with local school districts; Providence currently receives about 80% of its building and renovation costs from the state. The PPBA is responsible for principal and interest payments on bonds issued for school construction; these costs do not appear in the district's budget. The School Department leases its school buildings from the PPBA. Lease payments appear in the operating budget.

Revenues are classified as local and non-local. The local budget consists of unrestricted aid to education, city revenue, Medicaid reimbursements, and other miscellaneous school revenue. Non-local revenue consists of restricted state aid, federal funds, and grants from private sources.

As required by City Charter and School Board policy, school department expenditures are classified by object codes within major categories: salaries, benefits and special items, supplies, services, and capital items. Expenditures are also classified by department.

The Providence School Department uses the accrual method of accounting for revenues and expenditures. This practice is required by City Charter and is consistent with Generally Accepted Accounting Principles.

Rhode Island Laws Governing School Finances

Senate Bill 3050

In 2006, legislation was passed that significantly impacted Rhode Island School District budgets beginning in Fiscal Year 2008.

Senate bill 3050 (as amended), An Act Relating to Taxation – Property Tax was passed in the General Assembly. Section 1 of the Act amends R.I.G.L. Chapter 44-5-2, entitled Levy and Assessment of Local Taxes, with the following:

In FY 2008, a city/town may levy a tax of no more than 5.25% in excess of the total amount levied by that city for its prior FY (2007). This continues through FY 2013, decreasing the tax by ¼% each year, so that in FY 2013, the tax levy cannot exceed more than a 4% increase of the amount levied in 2012.

Section 5 of the Act amends R.I.G.L. Chapter 16-2-21, entitled, School Committees and Superintendents, with the following:

*The budget adopted and presented by any school committee for the fiscal year 2008 shall not propose the appropriation of municipal funds (**exclusive of state and federal aid**) in excess of one hundred five and one-quarter percent (105.25%) of the total of municipal funds appropriated by the city or town council for school purposes for fiscal year 2007; and*

Each year the allowed percentage goes down by ¼ percent, so that by FY 2013, the school budget cannot exceed 104% of funds appropriated in FY 2012 for school purposes. This mirrors the percent decrease of allowed tax levies as written in Section 1.

Uniform Chart of Accounts

Effective July 1, 2008, the Providence School Department adhered to the new state mandated uniform chart of accounts. Providence was one of 17 pilot districts that assisted with the development and implementation of the new account structure.

Beginning July 1, 2009, all Rhode Island public school districts will use one standard chart of accounts to account for its expenditures. This will allow the state to compare district expenditures consistently and measure these expenditures against student data.

State Aid

Rhode Island has not had a formula for allocating state aid to schools since 1995. Earlier legislation specifying a minimum per pupil expenditure and method for allocating state aid based on a city or town's tax capacity (Foundation Level School Support, R.I. Gen. Laws 16-7) was suspended. Districts now receive a base allocation determined annually by the Rhode Island General Assembly. Under the Rhode Island Student Investment Initiative (R.I. Gen. Laws 16-7.1), Providence and other districts with children in poverty and Limited English Proficiency receive

additional funds for professional development of teachers, early childhood education, full-day kindergarten, student equity, language assistance, student technology, and vocational equity. The total annual appropriation of these funds is distributed to qualifying districts based on enrollment and the proportion of students who meet the requirements of each fund. As a result of the lack of a state funding formula, and the appropriation of funds on an annual basis, state aid is not predictable from year to year.

More recent legislation (The Education Equity and Property Tax Relief Act, R.I. Gen. Laws 16-7.2) formed a joint legislative commission to establish a permanent education foundation aid formula for Rhode Island that provides for a school finance system predicated on student need and taxpayer ability to pay, promotes educational equity for all students, and reduces reliance on property tax to fund public education.

Balanced Budget Requirement

R.I. Gen. Laws 16-2-9 sets forth the general powers and duties of school committees. Among those responsibilities are to “provide for” and “assure” the implementation of federal and state laws, regulations of the Board of Regents, and local school policies. This provision also provides that the School Board shall “adopt a school budget to submit to the local appropriating authority,” and to “adopt any changes in the school budget during the course of the school year.” Specific budgetary provisions in R.I. Gen. Laws 16-2-23 require the School Board to adopt a balanced budget. The relevant language is explicit: “The school committee of each school district shall be responsible for maintaining a school budget which does not result in a debt” and “The school committee shall, within thirty (30) days after the close of the first and second quarters of the state’s fiscal year, adopt a budget as may be necessary to enable it to operate without incurring a debt.”

The balanced budget requirement also appears at R.I. Gen. Laws 16-2-18: “If, in any fiscal year a school committee is notified that estimated expenses may exceed total available appropriations, the school committee shall adopt and implement a plan to maintain a balanced school budget, which plan shall provide for continuous regular public school operations consistent with the requirements of section 16-2-2; provided, that in no fiscal year shall a deficit be permitted for school operations.

R.I. Gen. Laws 16-2-21 sets forth another iteration of the balanced budget requirement. The relevant language is: “Only a school budget in which total expenses are less than or equal to appropriations and revenues shall be considered an adopted school budget.”

Finally, R.I. Gen. Laws 16-2-21.4 sets forth a process for requesting waivers from compliance with certain state regulations, when the appropriated budget is insufficient, so that the school committee “may operate with a balanced budget within the previously authorized appropriation.”

Consultation with City Council

R.I. Gen. Laws 16-2-21 requires that the School Board and the City Council participate in a joint pre-budget discussion 60 to 90 days before the formal submission of the budget to the city. At this meeting the City Council is required to submit an estimate of projected revenues for the next fiscal year, and the School Board is required to submit to the City Council a statement of anticipated expenditures, projected enrollments, and staff and facilities requirements. This law further requires the School Board to submit a recommended budget to the City Council at least 30 days before the Council meets to make appropriations and to submit an amended budget, if necessary, within 30 days after the City Council determines its appropriation for the schools.

Teacher Nonrenewal Notification and Impact on Budget

R.I. Gen. Laws 16-13-2 requires that the School Board notify any teacher whose contract will not be renewed by March 1 of the year preceding the year for which contract will not be renewed. If it does not do so, the teacher has an enforceable claim, under state law, for payment for the ensuing year, in full. The collective bargaining agreement with the Providence Teachers Union permits layoffs, but the agreement must conform to the state law requirement that the Board notify of intent not to renew by March 1. The Board may rescind its notification in June/July. If it does not rescind the notification of nonrenewal, the teacher is laid off and the City does not pay; if it does rescind, the teacher is hired and paid.

Providence Home Rule Charter

Section 707 of the Providence Home Rule Charter defines the School Board's authority and responsibility for budget:

Annually at the time and in the manner provided in Article VIII, section 802 for all city departments, the school board shall submit to the finance director an itemized budget, including an itemized estimate of the anticipated revenue and the proposed expenditures necessary to meet the financial needs of the school department, including sums for the promotion of health of the school children for the ensuing fiscal year, together with such other supporting information as the finance director may direct.

The finance director, under the supervision of the mayor, may revise the estimates as submitted by the school board, and the mayor shall present to the city council the recommended budget for the operation of said school board in the same manner as required by Article VIII, section 803 for any other city department.

The city council shall have the power and authority to act on the school budget in the same manner and to the same extent it may act on the budgets of other city departments, and the city council may appropriate funds to the school department in lump sum or in such detail as it deems necessary and appropriate. The total amount or amounts so appropriated to the school department shall include all revenues from whatever source derived, and the department of finance shall be charged with the responsibility of insuring that no expenditures are made or obligations created by the school board which are in excess of the amount or amounts so appropriated or of such amounts as may be amended by the city council.

School Board Policies

The School Board has established policies to enact the requirements of state law, the city charter, and city ordinances, as well as to align the budget with district goals and to ensure appropriate budget planning and oversight. All School Board policies governing fiscal management are on the district's Web site:

http://www.providenceschools.org/dept/board/sec_d.html

The following summarizes fiscal policies.

Fiscal Policy Goals

The School Board recognizes that its fiscal policy and management is the foundational support for the entire school system. To provide effective fiscal policy, the Board has set the following goals for fiscal management:

1. To encourage advance program planning throughout the School Department, as an integral part of the budgetary process, including program planning, budgeting, evaluation system.
2. To develop, where feasible, multiple levels of proposed budget expenditures: minimums, desirable, optimum.
3. To develop long-range financial budget projections as a means of comprehensive planning for educational goals.
4. To extract the greatest educational return from the expenditure of available funds to reach educational objectives.
5. To explore all practical sources of dollar income.
6. To retain a qualified business and operations management staff and delegate to it the responsibility and authority to maintain proper fiscal control over the administration of the budget, and to regulate school department assets as determined by the Board within appropriate city ordinances.
7. To require the active participation of operating officials during the budget development process, as well as the administration of funds allocated to their areas of responsibility.
8. To require the Superintendent or his/her designee to prepare and present a fiscal analysis and such reports to the Board as may be needed for their consideration.
9. To hold the Superintendent or his/her designee responsible for the implementation of the fiscal policies of this Board.

Budget Planning

The fiscal year of the School Board is the same as the fiscal year for the City of Providence, July 1 to June 30. Budget planning usually begins in October or November for the next fiscal year and continues until a final budget is approved. All departments and individual schools participate in the development of a budget consistent with the district's goals, the Performance Management Plan, and individual school improvement plans.

The Superintendent presents a proposed budget for all sources of revenues, including state and federal funds, to the School Board no later than the second regular meeting in March of each year. By May 1, the School Board submits an approved budget to the City for inclusion in the Mayor's proposed budget. The City Council has final authority for adopting a budget for the entire city and its departments, including the School Department.

By city ordinance, the School Board has exclusive control over all money appropriated for the public schools and may expend the appropriated funds in any manner the Board determines is best for the schools.

The School Board submits a rolling five-year capital plan to the Providence Public Building Authority every year in January.

Budget Implementation

The Superintendent approves expenditures and encumbers funds in accordance with the approved budget and School Board policies. The School Department must maintain a balanced budget. If at any time actual revenue receipts do not equal the original estimates, the Superintendent must recommend and the School Board must approve changes necessary to balance the budget.

Budget Transfers

No major line item of expenditure may exceed the amounts established by the School Board's adopted budget, unless the School Board later authorizes transfers. The Superintendent may authorize requests for transfer of funds within major line items of appropriations. The Superintendent or his/her designee must report any transfer over \$5,000 to the School Board on a monthly basis. The School Board must approve any request for a transfer of funds if the amount or nature of the transfer significantly alters the original intent of the Budget. All transfers within and between major line items of appropriations must be done in accordance with the requirements of the Providence Home Rule Charter.

Funds from State Tax Sources/Funds from Federal Tax Sources

All applications for state and/or federal funds that may commit local funds or create new positions must be approved by the School Board prior to submission. The Superintendent approves any amendment of an approved application involving sums not exceeding 10% of the original grant. The Superintendent reports any amendment involving a financial change of more than 10% to the School Board.

All positions created in anticipation of federal funds are dependent upon those funds, and the School Department assumes no responsibility for continuing the positions.

Financial Accounting and Reporting

The School Department's chief financial officer is responsible for administering the department's accounting system, which must be consistent with all school, city, state and federal laws and regulations, and conform to generally accepted principles and methods of school and municipal fund accounting. All operating expenses are charged to the fiscal year in which they are incurred. Expenditures are limited to the amounts defined in the approved Budget, and the appropriation allotted.

Monthly Reports to the Board

The School Board receives a monthly summarized statement of operations and a statement of expenditures by major code items and the unencumbered balances for each code.

Financial Monitoring

The chief financial officer is responsible for ensuring that contracts and purchases do not exceed funds allocated for those purposes. The chief financial officer audits all charges to determine their regularity and correctness.

Purchasing Authority

All purchases and contractual obligations over \$5,000 must be approved by the City's Board of Contract and Supply.

Budget Development and Administration

The development of the district's spending plan is a year-long process. The process for the fiscal year ending June 30, 2010, began in November 2008 when schools and departments began preparing budgets for the upcoming school year.

Schools and administrative departments are required to complete a budget package that details their requirements for the upcoming school year. This package is distributed in November and returned to the Budget Office in January. Schools and administrative departments that require funding from non-local sources must also complete the non-local portion of the budget at this time. After the budgets are submitted, they are reviewed by the Budget Office and adjustments are made if necessary. After the Budget Office review, the Superintendent will review and make any necessary adjustments. The budget is then submitted to the School Board for approval.

The table below illustrates that the district must submit the budget in accordance with three different time lines. The budget is due to the City Finance Director by May 1, but the revenue from the State of Rhode Island will not be known until July. This timeline places a constraint on the budget as some program decisions may not be made until the summer.

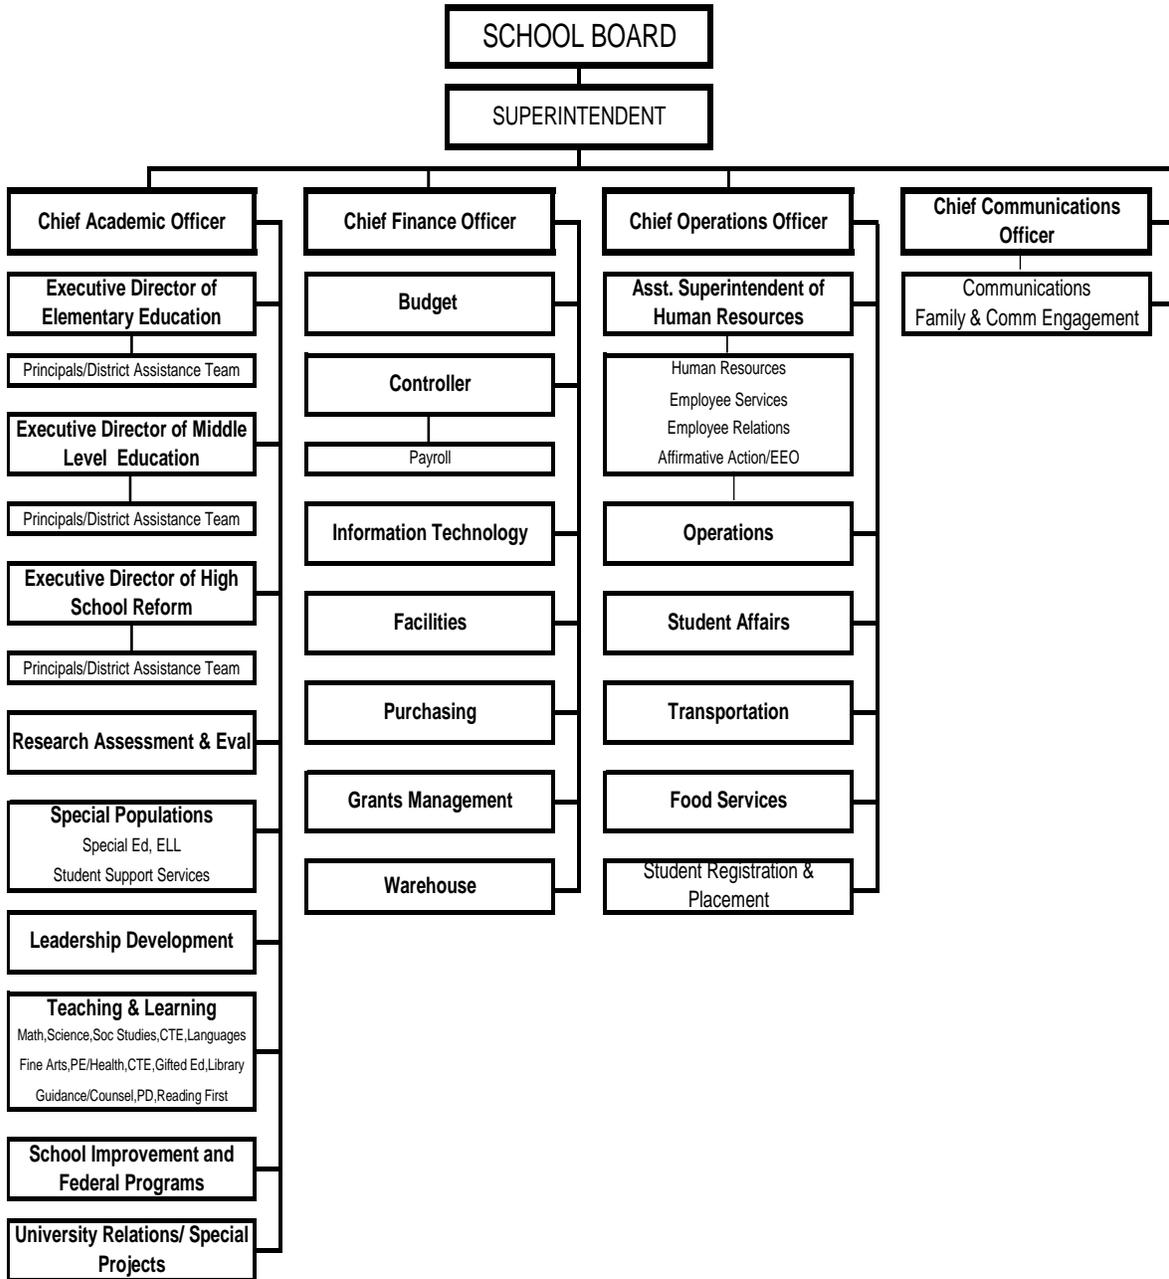

Budget Timeline	
DEADLINE DATE	ACTION
November 17, 2008	Budget packages sent to schools and administrative offices for all funding sources
December 2008	Budget training for principals and administrators
January 09, 2009	All budgets (local and non-local) due in the Budget Office
January 20-30, 2009	Budget hearings with administrative departments
March 23, 2009	Superintendent's Budget submitted to the School Board
April 27, 2009	Proposed School Board Budget submitted to the City Finance Director
June 1, 2009	Consolidated Resource Plan due to R.I. Department of Education
June 2009	Meeting(s) with City Council Finance Committee to review budget & potential reductions
July 2009	Final budget approved by City Council
August 2009	Final budget adopted by the School Board.

Consolidated Resource Plan

The Rhode Island Department of Education requires that the Consolidated Resource Plan (CRP) for use of federal and state restricted funds be developed as the result of an intensive planning process based on an analysis of district needs and input from teachers, parents, students, and community. The CRP is a comprehensive proposal that outlines the way each school district in Rhode Island will spend millions of dollars in state/federal funds annually. Each school district is required to submit an extensive application to the Rhode Island Department of Education (RIDE) that provides detailed funding plans for the following streams of money:

Consolidated Resource Plan	
Source	Purpose
Title I	Improving the Academic Achievement of the Disadvantaged; Homeless Children and Youth
Title II, Part A	Teacher Quality
Title III	Language Acquisition
Title IV	Safe and Drug Free Schools
Title V	Parental Choice and Innovative Programs
IDEA	Special Education

This capital plan will be funded through issuing debt for the various projects listed above. The debt will be issued by the Providence Public Building Authority (PPBA), who will also repay the debt principal and interest. The repayments do not appear in the Providence School Department Budget.

This capital plan was approved on April 17, 2006. A new capital plan has not been approved.

The Providence School Department participates in the City of Providence Master Lease Program. This allows the School Department to borrow funds to purchase capital equipment. Funds are repaid over a four or five year period. The above payments indicate the amount owed on each of the outstanding loans. The repayments are included in the Providence School Department Local Budget

Revenue Sources and Trends

Providence School Department revenues come from state aid, city appropriations, federal funds, and grants.

Total Spending Plan The district's total spending plan is based on all sources of funding, local and non-local.

Year	Local	Non-Local	Total
2005	\$288,225,988	\$61,684,862	\$349,910,850
2006	300,285,697	64,587,972	364,873,669
2007	311,217,603	59,528,218	370,745,821
2008	314,304,132	59,911,653	374,215,785
2009	322,122,729	64,052,452	386,175,181
2010	325,075,600	60,957,989	386,033,589

Local Budget The local budget consists of Unrestricted State Aid to Education, City Revenue, Medicaid Reimbursements, and other miscellaneous school revenue. It is used to fund basic department operating expenses such as salaries, supplies, transportation, maintenance and utilities.

The Non-Local Budget. The Providence School Department augments the local budget with additional funds from non-local sources. These funds are typically very restrictive, but give the Department the resources to conduct professional development, improve curriculum, enhance classroom activities, purchase technology, and plan and implement school reform. The non-local budget consists of restricted-use funds from the State of Rhode Island and the Federal Government, and grants from foundations.

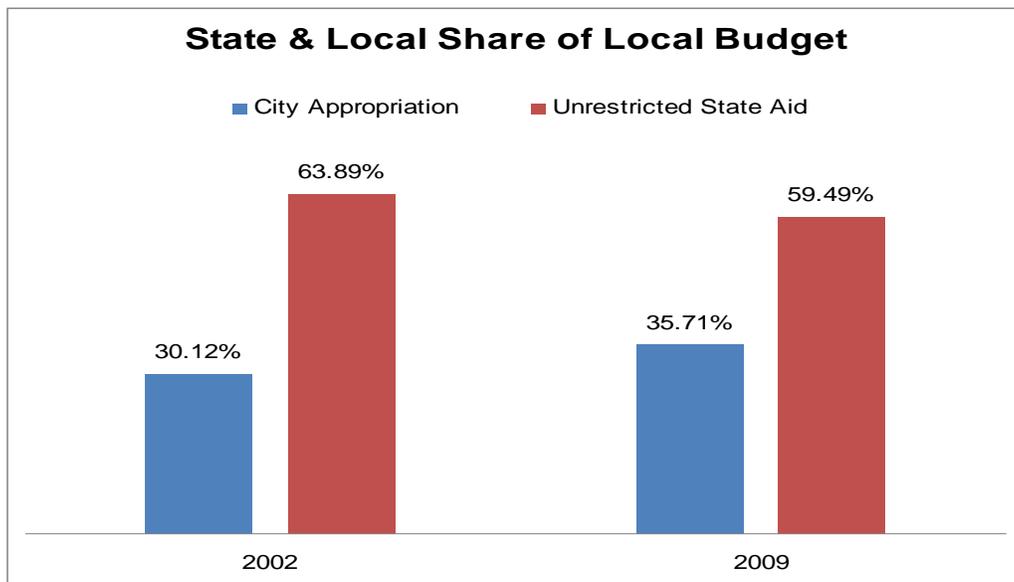

Year	Amount	Percent Increase	Total Budget	Percent of Budget
1999	66,881,199	7.92%	198,551,080	33.68%
2000	74,616,004	11.56%	218,178,651	34.20%
2001	75,059,819	0.59%	234,636,414	31.99%

2005	93,787,747	0.00%	288,225,988	32.54%
2006	102,338,776	9.12%	300,285,697	34.08%
2007	104,628,114	2.24%	311,217,603	33.62%
2008	108,313,872	3.52%	314,304,132	34.46%
2009	115,024,667	6.20%	322,122,729	35.71%

Rhode Island has not had a formula for allocating state aid to schools since 1998. Earlier legislation specifying a minimum per pupil expenditure and method for allocating state aid based on a city or town's tax capacity (Foundation Level School Support, R.I. Gen.

Laws 16-7) was suspended. Districts now receive a base allocation determined annually by the Rhode Island General Assembly. Under the Rhode Island Student Investment Initiative (R.I. Gen. Laws 16-7.1), Providence and other districts with children in poverty and limited English proficiency receive additional funds for professional development of teachers, early childhood education, full-day kindergarten, student equity, language assistance, student technology, and vocational equity. The total appropriated annually for these funds is distributed to qualifying districts based on enrollment and the proportion of students who meet the requirements of each fund.

Year	Amount	Percent Increase	Total Budget	Percent of Budget

2005	177,394,082	0.00%	288,225,988	61.55%
2006	180,624,383	1.82%	300,285,697	60.15%
2007	189,550,228	4.94%	311,217,603	60.91%
2008	189,550,228	0.00%	314,304,132	60.31%
2009	191,645,228	1.11%	322,122,729	59.49%

As a result of the lack of a state funding formula, and the appropriation of funds on an annual basis, state aid is not predictable from year to year. The table below illustrates the inconsistencies that range from an 11.47% increase in 2001 to a 0% increase in 2005. The Governor’s Proposed Budget for the 2009-2010 fiscal year includes a 3.31% reduction in school aid for the Providence School Department. This amount would be 57% of the revenue required to support the current local budget proposal. Historically nearly two-thirds of the Local Budget has been from the State. The State’s share of the PSD budget has dropped since 2003, with only a small increase in 2007, the PSD has seen a high of 64% in 2002 to a low of 59% in 2009.

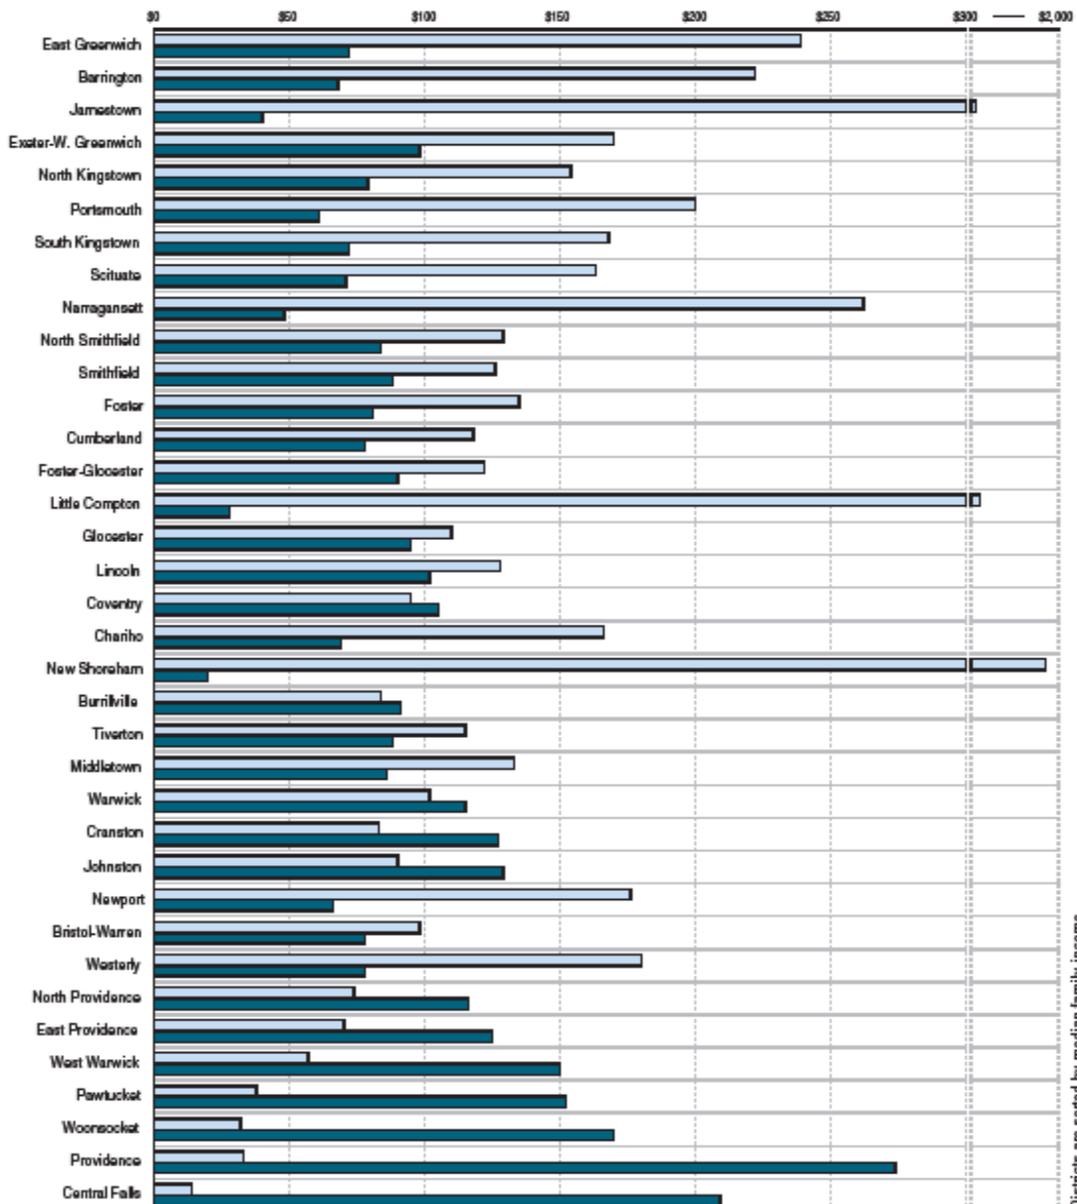

Property Taxes

Approximately 36% of the Providence School Department's 2008-2009 local operating budget revenue is from the City of Providence. The main source of that revenue is property taxes. Providence's tax capacity is the third-lowest of all the school districts in the state, and its tax effort is the highest, as shown in the following charts. Providence's tax effort exceeds all other communities in the State.

Equity and Adequacy of Resources

Rhode Island

Tax Capacity and Effort Based on Residential Property Value

Districts are sorted by median family income.

- Property Tax Capacity:** The amount of taxable property wealth available to a municipality per capita. For educational purposes in the regional school districts, the capacities of the cities and towns have been translated into district capacities. The tax capacity of each district is divided by the statewide capacity and then multiplied by 100.
- Tax Effort:** The extent to which a district is taxed in relation to the rest of the state. The property tax of the municipality is divided by the statewide average for all municipalities and multiplied by 100.

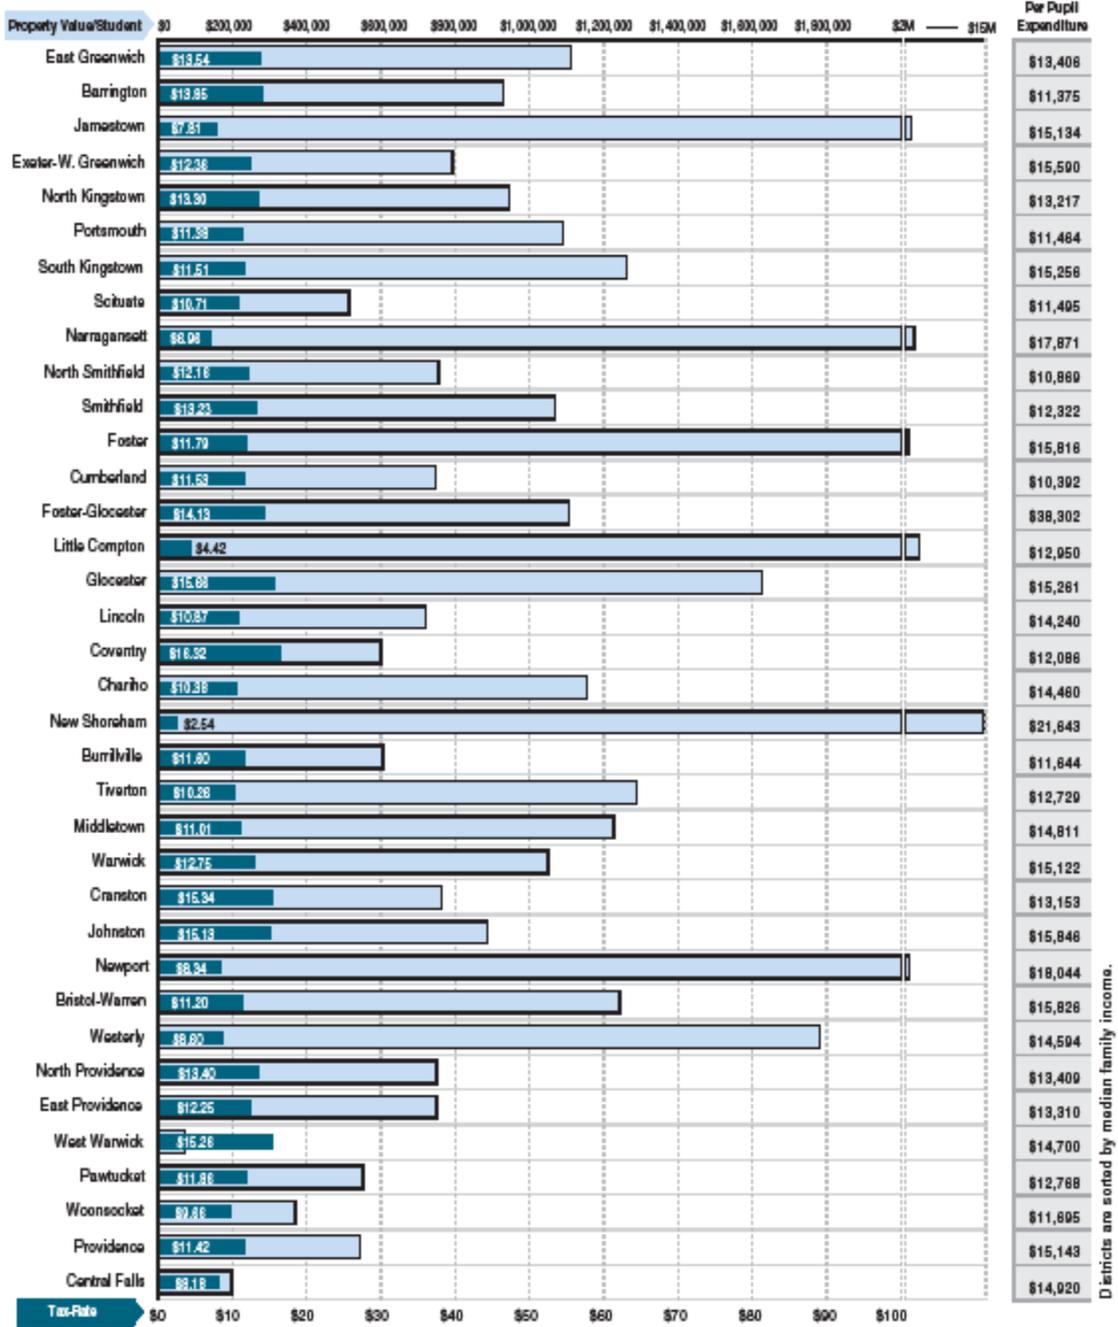

Data source: R.I. Department of Revenue, Division of Property Valuation and Municipal Finance

Equity and Adequacy of Resources

Rhode Island

Property Value Per Student Compared to Tax Rate on Owner-Occupied Residential Property

Property value per student Tax rate per \$1,000 of assessed value of owner-occupied residential property

Districts are sorted by median family income.

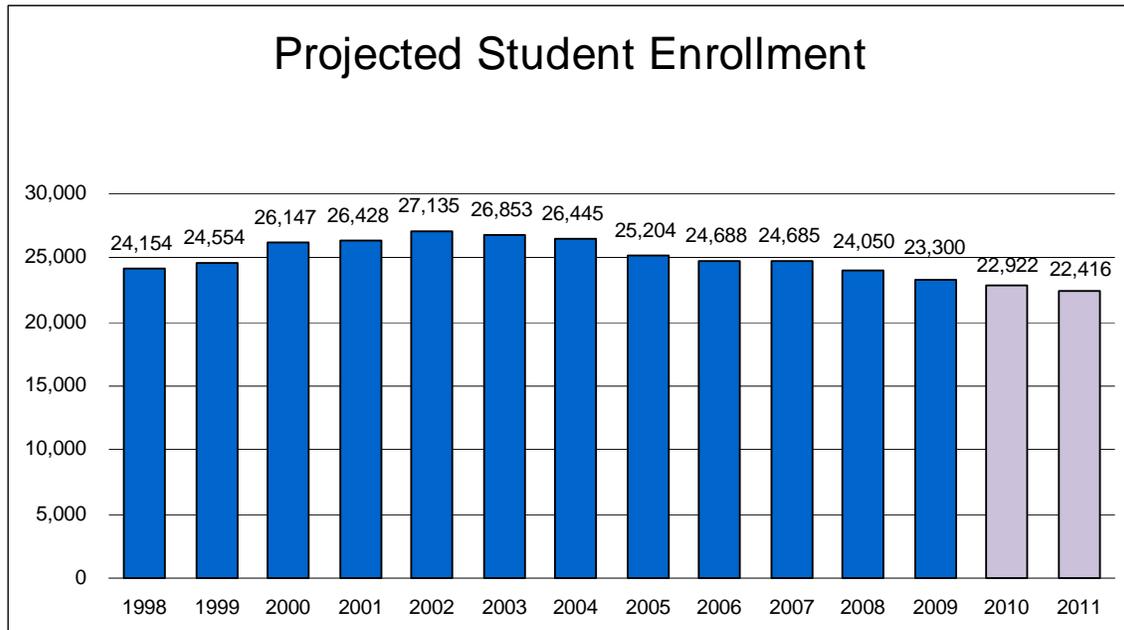

Data source for property values, income, tax rate: R.I. Department of Revenue, Division of Property Valuation and Municipal Finance
Data source for school spending: Infilie

The City of Providence levies taxes on real estate (residential and commercial), motor vehicles, inventory, and equipment. Each item has a separate tax rate. A portion of each tax rate is designated for the School Department. The City recently conducted an update of property values (2007). The tax on inventory was phased out in 2008.

City of Providence Tax Rates				
Per \$1,000 of Valuation				
Class of Property	2005	2006	2007	2008
Real Estate				
Municipal	\$21.71	\$21.71	\$16.45	\$17.01
School	8.52	8.52	6.39	6.69
	\$30.23	\$30.23	\$22.84	\$23.70
Real Estate-Commercial				
Municipal	\$27.06	\$27.34	\$19.44	\$20.10

	\$76.78	\$76.78	\$76.78	\$76.78

Enrollment and Demographic Changes

The Providence School Department is the largest school district in the State of Rhode Island. The student population is 21% larger than the combined total of the second and third largest districts (Cranston and Warwick) and makes up 17.7% of the students in Rhode Island public schools. Enrollment projections are shaded, and the assumptions for these projections are:

- The annual number of births to Providence residents through 2008 will level off at about 2,860-2,900 per year.
- The rate of housing growth over the next ten years will continue at approximately the same rate as that of the past 3-4 years (about 100-120 units... multi-family, single family, etc. per year)
- The pattern and numbers involved in the turnover of existing housing stock will not change appreciably from the recent past, however, the rapidly rising purchase prices may make it more difficult for some young families to purchase homes in Providence; rapidly rising rents also will affect young families;
- There will continue to be public Kindergarten registration at about 74% of the number born five-years previous; there will be about 11% growth in Grade 1; the class total will drop 1-5% annually through Grade 5; the class will be stable in Grades 6-7; then experience a 5% loss in Grade 8; and drop about 23% in Grade 9, with loss in Grades 10-12;
- Pre-K enrollment will remain constant at 184 through 2013-14.
- The percentage of Providence Students in non-public schools, public charter or vocational schools, and in home-schooling will remain at present levels.

Between 1990 and 2000 (last census date) the regular education population has decreased, while special education placements and English Language Learners have increased. These special populations require additional resources, and in the case of special education, smaller class sizes. During the same period of time the percentage of students eligible for free and reduced lunch has increased by 45%. Approximately 80% of the City's enrollment is eligible for Free/Reduced Lunch Program.

Personnel Resource Changes

Personnel Resource Changes

Student Performance

Providence's Office of Research, Assessment, and Evaluation has significantly increased its capacity to collect and analyze student achievement data and makes all data available on its assessment website:

<http://www.providenceschools.org/assessments/>

The Rhode Island Department of Education has published Info Works, a comprehensive compilation of student performance data based on state assessments. Data are available for the state as a whole, by district, and by school within districts. Results are posted on the RIDE website:

<http://www.infoworks.ride.uri.edu/>

Providence is not comparable to any other Rhode Island district in size, demographics, degree of child poverty, or other factors known to affect student performance.

The following pages illustrate the results of the New England Common Assessment Program (NECAP) tests that are administered to students in Rhode Island, New Hampshire and Vermont as part of each state's statewide assessment program. Further information regarding this assessment can be obtained by contacting the District's Assessment Office at (401) 456-9128. District Results

Reading:

NECAP results for reading are presented in terms of performance level and scaled scores. As stated previously, the performance level gives a broader sense of group performance, providing the percentage of students whose scores fall within that particular grouping of scores. The scale score results will help to determine where within the box of the performance level, those individual students' scores actually are distributed. Chart 1 represents the percent of students in each performance level. Chart 2 provides distribution information for scaled scores. Data from these charts suggest the following:

Performance Levels

Distribution: The expected outcome of the distribution of performance level results is that a majority of the students will score *proficient* each year. *Majority* is best defined each year by the established Annual Measurable Outcome (AMO) as defined through the State's implementation of No Child Left Behind (NCLB). For the 2008-2009 academic year, this target is 84.1%, 78.6%, and 75.0% (elementary, middle, and high school respectively) for ELA targets.

- Percent *proficient* in 2008 ranged from 40% (gr. 8) to 55% (gr. 1).
- Percent *substantially below proficient* in 2008 ranged from 21% (gr. 7) to 26% (gr. 4, 8).
- The greatest improvement in percent *proficient* from 2007 to 2008 was seen in grade 4(37% to 47%). The greatest improvement across the four-year span was in grade 7 (from 26% in 2005 to 46% in 2008).

- No grade levels showed a decline in percent *proficient* from 2007 to 2008; the smallest improvement was seen in grade 5 (43% to 44%).
- Grade 11 demonstrated a majority of students scoring *proficiency* based on the general distribution (55% of the students scored *proficient*). No distributions demonstrated a majority of students scoring *proficient* based on AMO.

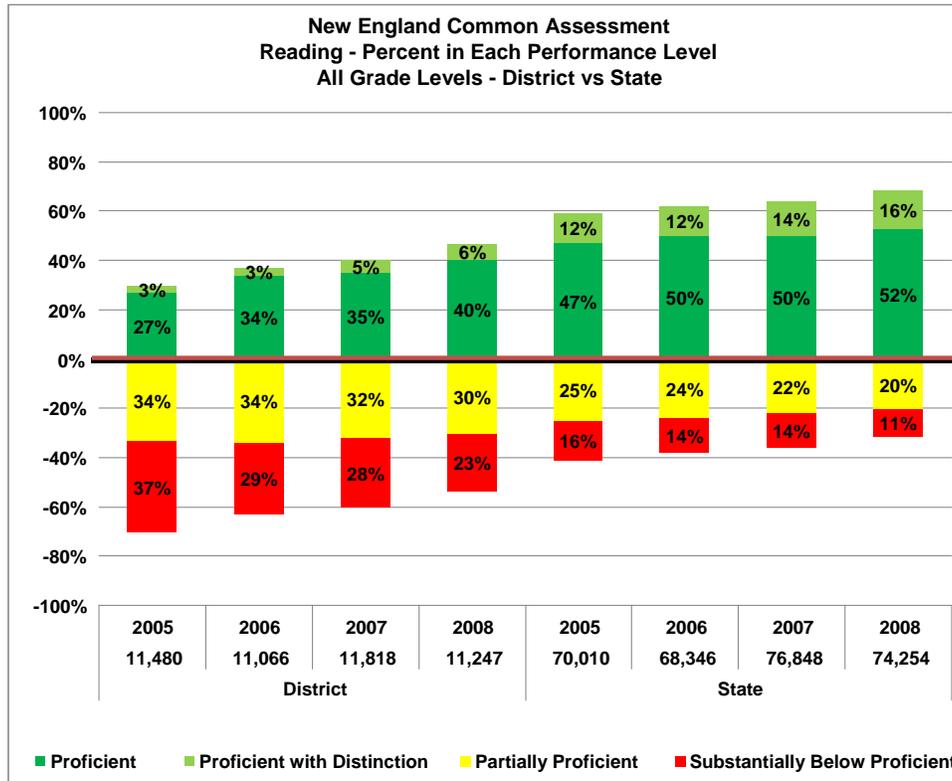

Local Trends: The expected outcome when examining trend data is that a specific observed behavior will occur at least three times within a given data set. In this case, the specific observed behavior is expected to be that the percent of students scoring *proficient or higher* will consistently increase while the percent scoring *substantially below proficient* decreases. Graphically, this is represented when the bands at the top grow or increase while the bands at the bottom decrease in size.

- District-wide, 46% of students scored *proficient or higher* in reading in 2008. This compares with 40% in 2007.
- District-wide, 23% of students scored *substantially below proficient* in reading in 2008. This compares with 28% in 2007.
- District-wide, a trend demonstrating an increase in percent of students scoring *proficient* across a four-year period has emerged for reading.
- Since the second administration (2006), the district has also demonstrated a trend of decreasing percentage of students scoring in the *substantially below proficient*.
- Therefore, for at least the past three years, the district has demonstrated a pattern that is consistent with the expected outcome.

District and State Comparisons: The expected outcome when examining comparison data is that the district will have the same or a larger percentage of students scoring *proficient* as compared to the state.

- At no time in the last four years has the district demonstrated results where a majority of the students scored *proficient* in reading. While the state may not have demonstrated results consistent with the AMO definition of *majority*, it consistently has had over fifty percent of students scoring *proficient* in reading over the last four years.
- Both state and district results showed a trend of higher percentages of students scoring *proficiency* in reading over four years. The district improved from 30% scoring *proficiency* in 2005 to 46% in 2008 while the state improved from 59% to 68%.
- The district appears to be closing the gap with the state in terms of the percentage of students scoring *proficient*. The four-year change in the percentage of students scoring *proficient* shows a greater increase for the district (16 percentage point gain) than for the state (9 percentage point gain).

Chart 1: NECAP Reading Aggregate Results Reported by Performance Levels for District and State

Scaled Scores: A mean scaled score of 40 is the demarcation for defining proficiency. At the district level, scaled score changes of one point or more are statistically significant (*Guide to Using the 2008 NECAP Reports, Measured Progress, 2008, p. 20*).

Distribution: The expected outcome of the distribution of scaled score results is that the mean (average) of the distribution will be *at or above* 40.

- Mean scaled scores for reading in 2008 ranged from 37 (gr. 8) to 40 (gr. 11); the mode for reading was 38, with four of the seven grade levels assessed reporting this mean scaled score.
- The greatest improvement in scaled scores from 2007 to 2008 was seen in grade 6 (35 to 38).
- No grade levels showed a decline in mean scaled score from 2007 to 2008; however, at grade 5 the mean scaled score remained consistent (38).
- Only grade 11 reported a mean scaled score identified as *proficient* (on a scale where a minimum of 40 has been defined as such, grade 11 scored 40).

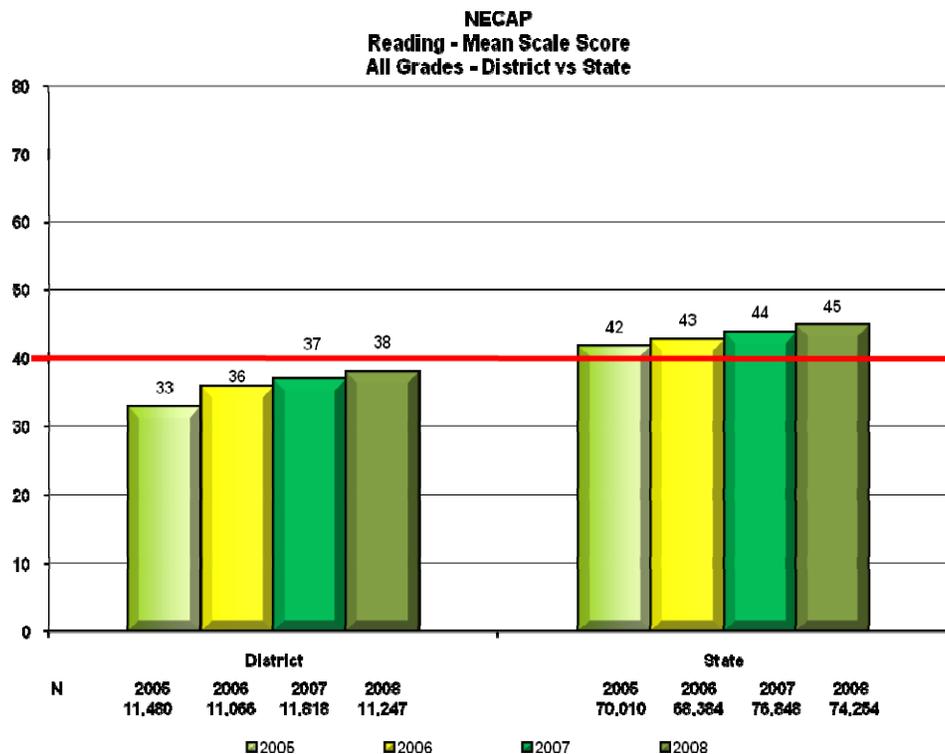

Trends: The expected outcome when examining trend data is that a specific observed behavior will occur at least three times within a given data set. In this case, the specific observed behavior is expected to be that the mean (average) scale score will consistently increase.

- At the district level, the mean scaled score increased from 37 in 2007 to 38 in 2008. While this increase is statistically significant, the score remains *below proficient*.
- At the district level, a clear, positive trend demonstrating an increase in mean scaled score across a four-year period has emerged for reading that is approaching, but not yet reaching, *proficient*.

District and State Comparisons: The expected outcome when examining comparison data is that the district will have the same or a larger percentage of students scoring *proficient* as compared to the state.

- While the state has consistently reported a mean scaled score for students that can be defined as *proficient*, the district's mean scaled score for its students has been *below proficient* for all of the four years of administration.
- Both state and district results showed a trend of higher mean scaled score in reading over four years. Information provided in the *Guide to Using the 2008 NECAP Reports* indicate that these positive increases are statistically significant.
- The district improved from a mean scaled score of 33 in 2005 to 38 in 2008 (3 point gain) while the state improved from 42 to 43 (1 point gain).
- The growth trend defined by increase in mean scaled score appears to be sharper for the district than for the state, suggesting a narrowing of performance gap between the two groups. The four-year change in the mean scaled score shows a greater increase for the district (5 point gain) than for the state (3 point gain).

Chart 2: NECAP Reading Aggregate Results Reported by Scaled Scores for District and State

Writing

NECAP results for writing are presented in terms of performance level and scaled scores. Chart 3 represents the percent of student in each performance level. Chart 4 provides distribution information for scaled scores for Grades 5 and 8; scaled score information is not available at this time for Grade 11. Data from these charts suggest the following:

Performance Levels

Distribution: The expected outcome of the distribution of performance level results is that a majority of the students will score *proficient* each year. *Majority* is best defined each year by the established Annual Measurable Outcome (AMO) as defined through the State's implementation of No Child Left Behind (NCLB). For the 2008-2009 academic year, this target is 84.1%, 78.6%, and 75.0% (elementary, middle, and high school respectively) for ELA targets.

- Percent proficient in 2008 ranged from 29% (gr. 8, 11) to 37% (gr. 5).
- Percent substantially below proficient in 2008 ranged from 15% (gr. 11) to 30% (gr. 8).
- The greatest improvement in percent proficient from 2007 to 2008 was seen in grade 8 (20% to 29%).
- No grade levels showed a decline in percent proficient from 2007 to 2008; the smallest improvement was seen in grade 5 (36% to 37%).
- No distributions demonstrated a majority of students scoring *proficient* based on general distribution or AMO.

Local Trends: The expected outcome when examining trend data is that a specific observed behavior will occur at least three times within a given data set. In this case, the specific observed behavior is expected to be that the percent of students scoring *proficient or higher* will consistently increase while the percent scoring *substantially below proficient* decreases. Graphically, this is represented when the bands at the top grow or increase while the bands at the bottom decrease in size.

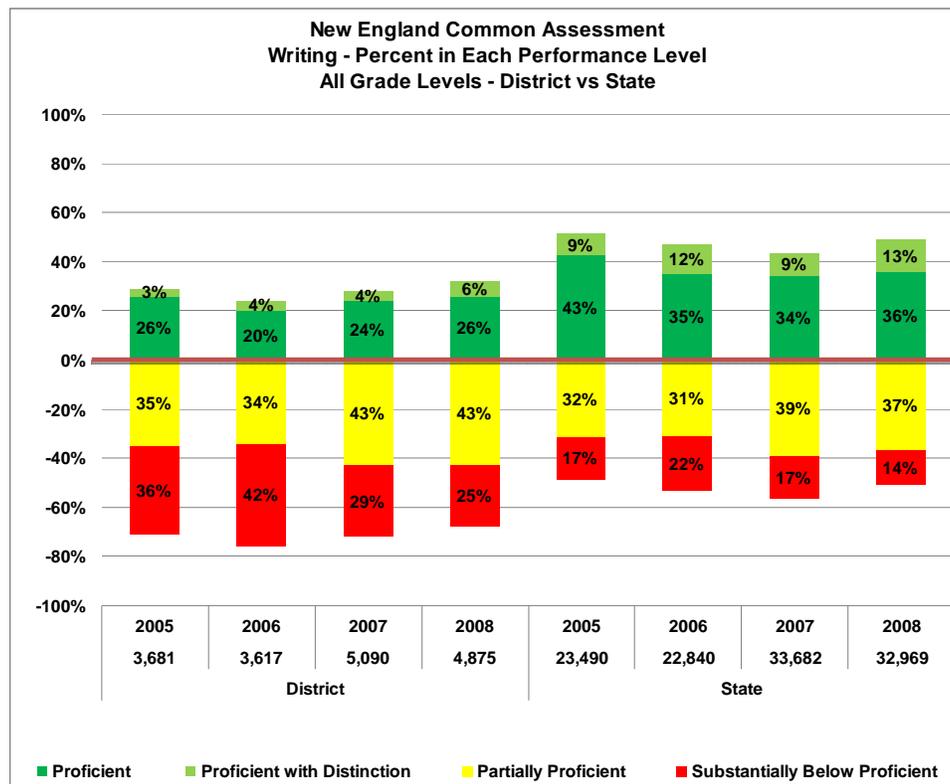

- District-wide, 32% of students scored *proficient or higher* in writing in 2008. This compares with 28% in 2007.
- District-wide, 25% of students scored *substantially below proficient* in writing in 2008. This compares with 29% in 2007.
- Starting with the second year of administration (2006), a trend demonstrating an increase in percent of students scoring *proficient* across the most recent three years has emerged for writing.
- For these three years (2006, 2007, and 2008), the district has also demonstrated a trend of decreasing percentage of students scoring in the *substantially below proficient*.

- Therefore, for at least the past three years, the district has demonstrated a pattern that is consistent with the expected outcome.

District and State Comparisons: The expected outcome when examining comparison data is that the district will have the same or a larger percentage of students scoring *proficient* as compared to the state.

- At no time in the last four years has the district demonstrated results where a majority of the students scored *proficient* in writing. While the state may not have demonstrated results consistent with the AMO definition of *majority*, it did have over fifty percent of students scoring *proficient* in writing during the first of the four-year period. However, the state results do not indicate a persistence or improvement in this level of performance since the 2005 administration.
- While the district results showed a trend of higher percentages of students scoring *proficiency* in writing over at least three of the four years of test administration, the state shows no trend in increasing the percentage of students scoring *proficient*. The district improved from 29% scoring *proficiency* in 2005 to 32% in 2008 while the state went from 52% to 49%.
- The district appears to be closing the gap with the state in terms of the percentage of students scoring *proficient*. The four-year change in the percentage of students scoring *proficient* shows a greater increase for the district (16 percentage point gain) than for the state (9 percentage point gain).

Chart 3: NECAP Writing Aggregate Results Reported by Performance Level for District and State

Scaled Scores: As mentioned previously, scaled score results have been provided for Grades 5 and 8, but not Grade 11. As such the following results do not reflect Grade 11 outcomes. A mean scaled score of 40 is the demarcation for defining proficiency. At the district level, scaled score changes of one point or more are statistically significant (*Guide to Using the 2008 NECAP Reports, Measured Progress, 2008, p. 20*).

Distribution: The expected outcome of the distribution of scaled score results is that the mean (average) of the distribution will be *at or above* 40.

- Mean scaled scores for writing in 2008 ranged from 34 (gr. 8) to 37 (gr. 5).
- The greatest improvement in scaled scores from 2007 to 2008 was seen in grade 8 (31 to 34, and increase of 3 points).
- Neither grade level showed a decline in mean scaled score from 2007 to 2008.
- No grade reported a mean scaled score identified as *proficient*.

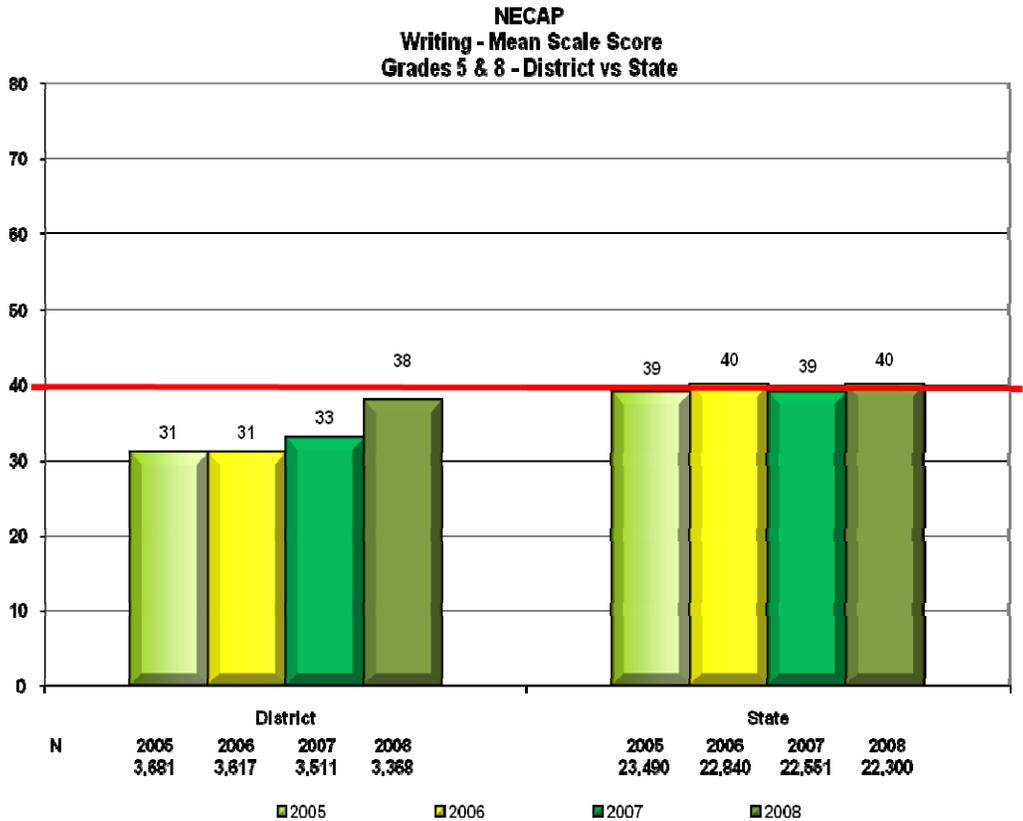

Trends: The expected outcome when examining trend data is that a specific observed behavior will occur at least three times within a given data set. In this case, the specific observed behavior is expected to be that the mean (average) scale score will consistently increase.

- At the district level, the mean scaled score increased from 33 in 2007 to 38 in 2008. While this increase is statistically significant, the score remains *below proficient*.
- At the district level, a clear, positive trend demonstrating an increase in mean scaled score across the last three years of administration has emerged for writing that is approaching, but not yet reaching, *proficient*.

District and State Comparisons: The expected outcome when examining comparison data is that the district will have the same or a larger percentage of students scoring *proficient* as compared to the state.

- The district data indicates a positive trend (increasing mean scaled score) over the last three years of administration. This trend is approaching, but has not yet reached, *proficient*.
- Unlike the district data, no clear trend has emerged for the state. However, the state mean scaled score has reached *proficient* in two of the last four years.
- The district improved from a mean scaled score of 31 in 2005 to 38 in 2008 (7 point gain based on consistent growth over the last three years) while the state improved from 39 to 40 (1 point gain that has not been consistently maintained).
- The growth trend defined by increase in mean scaled score appears to be sharper for the district than for the state, suggesting a narrowing of performance gap between the two groups in writing.

Chart 4: NECAP Writing Aggregate Results Reported by Scaled Score for District and State (Gr. 5 & 8)

Mathematics

NECAP results for mathematics are presented in terms of performance level and scaled scores. Chart 5 represents the percent of student in each performance level. Chart 6 provides distribution information for scaled scores. Data from these charts suggest the following:

Performance Levels

Distribution: The expected outcome of the distribution of performance level results is that a majority of the students will score *proficient* each year. *Majority* is best defined each year by the established Annual Measurable Outcome (AMO) as defined through the State’s implementation of No Child Left Behind (NCLB). For the 2008-2009 academic year, this target is 74.5%, 64.1% and 63.2% (elementary, middle and high school respectively) for math targets.

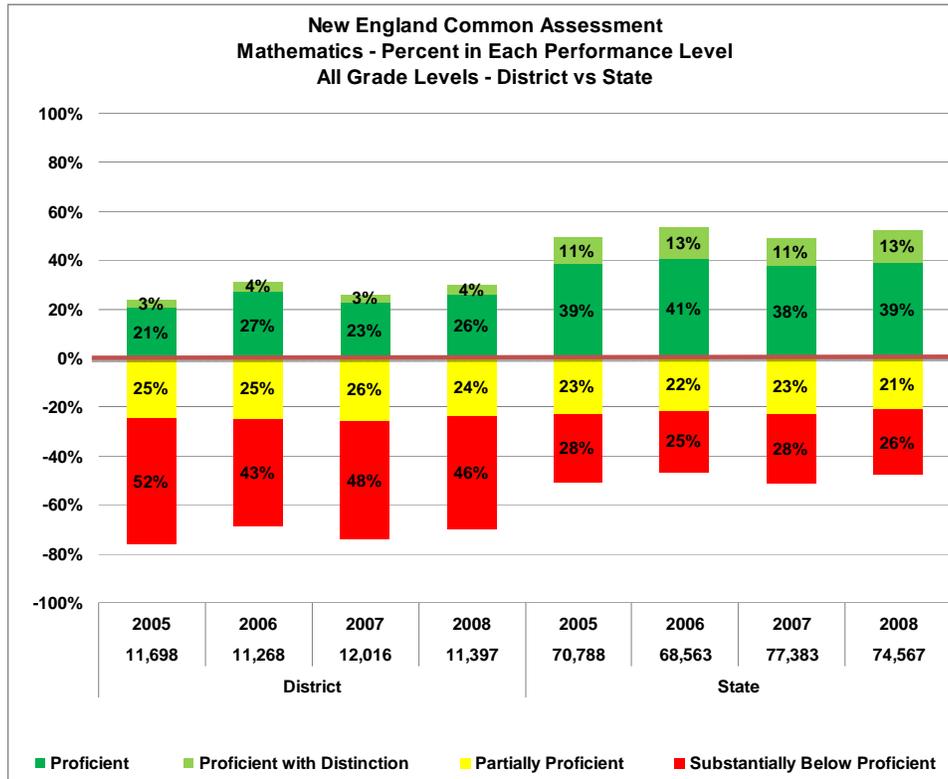

- Percent *proficient* in 2008 ranged from 15% (gr. 11) to 40% (gr. 4).
- Percent *substantially below proficient* in 2008 ranged from 34% (gr. 4) to 67% (gr. 11).
- The greatest improvement in percent *proficient* from 2007 to 2008 was seen in grade 4 (26% to 40%).

- No grade levels showed a decline in percent *proficient* from 2007 to 2008; the smallest improvement was seen in grade 5 (34% to 35%) and grade 6 (29% to 30%).
- No distributions demonstrated a majority of students scoring *proficient* based on general distribution or AMO.

Local Trends: The expected outcome when examining trend data is that a specific observed behavior will occur at least three times within a given data set. In this case, the specific observed behavior is expected to be that the percent of students scoring *proficient or higher* will consistently increase while the percent scoring *substantially below proficient* decreases. Graphically, this is represented when the bands at the top grow or increase while the bands at the bottom decrease in size.

- District-wide, 30% of students scored *proficient or higher* in mathematics in 2008. This compares with 26% in 2007.
- District-wide, 46% of students scored *substantially below proficient* in mathematics in 2008. This compares with 48% in 2007.
- District-wide, a trend demonstrating an increase in percent of students scoring *proficient* in mathematics is suggested when looking across a four-year period. With the exception of the second year of administration, a gradual increase is demonstrated with percentages of students *proficient* moving from 24% (2005) to 26% (2007) to 30% (2008). The spike of scores supports an increase in performance, but may have been over-inflated due to error.
- For these same three years (2005, 2007, and 2008), the district has also demonstrated a trend of decreasing percentage of students scoring in the *substantially below proficient*.
- Therefore, in general from the 2005 to 2008 administration, the district has demonstrated a pattern that is consistent with the expected outcome.
- **District and State Comparisons:** The expected outcome when examining comparison data is that the district will have the same or a larger percentage of students scoring *proficient* as compared to the state.
- At no time in the last four years has the district demonstrated results where a majority of the students scored *proficient* in mathematics. While the state may not have demonstrated results consistent with the AMO definition of *majority*, it has had over fifty percent of students scoring *proficient* in mathematics consistently over the last four years.
- Both state and district results show no consistent trend of higher percentages of students scoring *proficiency* in mathematics over four years. The district improved from 24% scoring *proficiency* in 2005 to 30% in 2008 while the state improved from 50% to 52%.
- The increase in percentage of students scoring *proficient* indicates that the district appears to be closing the gap with the state in terms of the percentage of students scoring *proficient*. However, the inconsistencies in the results across the four-year period make it difficult to determine a true degree to which this might be the case.

Chart 5: NECAP Math Aggregate Results Reported by Performance Level for District and State

Scaled Scores: A mean scaled score of 40 is the demarcation for defining proficiency. At the district level, scaled score changes of one point or more are statistically significant (*Guide to Using the 2008 NECAP Reports, Measured Progress, 2008, p. 20*).

Distribution: The expected outcome of the distribution of scaled score results is that the mean (average) of the distribution will be *at or above* 40.

- Mean scaled scores for mathematics in 2008 ranged from 28 (gr. 11) to 36 (gr. 4).
- The greatest improvement in scaled scores from 2007 to 2008 was seen in grade 4 (32 to 36, a four point increase).
- No grade levels showed a decline in mean scaled score from 2007 to 2008; however, at grade 5 the mean scaled score remained consistent (35).
- No grades reported a mean scaled score identified as *proficient*.

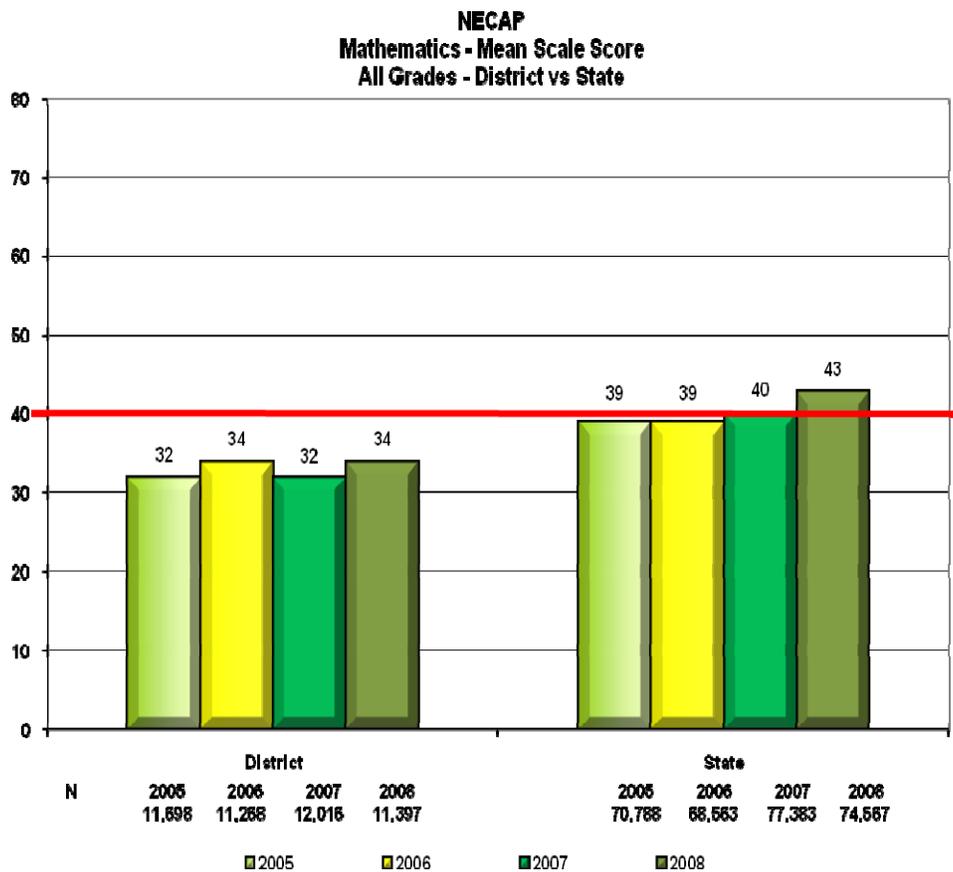

Trends: The expected outcome when examining trend data is that a specific observed behavior will occur at least three times within a given data set. In this case, the specific observed behavior is expected to be that the mean (average) scale score will consistently increase.

- At the district level, the mean scaled score increased from 32 in 2007 to 34 in 2008. While this increase is statistically significant, the score remains *below proficient*.
- At the district level, no clear performance trend can be identified for mathematics.

District and State Comparisons: The expected outcome when examining comparison data is that the district will have the same or a larger percentage of students scoring *proficient* as compared to the state.

- The state data indicates a positive trend (increasing mean scaled score) over the last three years of administration. This trend reached *proficient* in the second year of this three-year trend.
- Unlike the state data, no clear trend has emerged for the district. Also, the district mean scaled score remains *below proficient*.
- The district improved from a mean scaled score of 32 in 2005 to 34 in 2008 (2 point gain that has not been consistently maintained) while the state improved from 39 to 43 (4 point gains showing consistent growth).
- The data indicates that the district is not narrowing the performance gap between the two groups.

Chart 6: NECAP Math Aggregate Results Reported by Scaled Scores for District and State

In\$ite Financial Data

The Providence School Department, like all other public school districts in Rhode Island is monitored by the Rhode Island Department of Education (RIDE). Each district must fulfill an annual financial reporting requirement. This requirement, In\$ite, is a collection of the district's financial data that categorizes district expenditures. The following is a description of In\$ite, taken from the RIDE website:

http://www.rido.net/ride_insite/Default.htm#Instruction

In\$ite™ – the Finance Analysis Model for Education - is software designed as an easy-to-understand information and finance reporting system for school district expenditures.

- The State Legislature in collaboration with the Rhode Island Department of Education has established a more detailed and informative system of reporting education expenditures for all school districts. This project was originally called "Coopers and Lybrand" or In\$ite™. (Fox River Learning, Inc. now owns the In\$ite™ program.)
- In\$ite™ includes all sources of funding (federal and state grants, town/city general revenue funds, state aid, and other specialized funds that each district may receive) to analyze each district's expenditures.
- With the millions of dollars being spent to educate our young people, it makes sense that decision-making data be available to district leaders, school leaders, and state leaders regarding where our resource dollars are being spent. In\$ite™ is a system tool that helps greatly in this effort, as it provides consistent ways to review expenditures for every school district and in the near future for every school.
- Every district's costs should not be the same - there are many policy and education program decisions for their particular student body that every district has the ability to make in the best interests of their students and with the resources available to them. In\$ite™ will provide a consistent method to look at the related financial information for each district.

How does In\$ite™ group school district expenditures?

By Function - In\$ite™ categorizes district expenditures into one of five broad categories (called functions):

- Instruction
- Instructional Support
- Operations
- Other Commitments
- Leadership

These functions provide a simple overview of how district funds are used to operate schools and to educate students. See below for details of each major function area.

What is included in each major function area?

Each major function is divided into sub-functions, and then into detail functions as shown on the following list:

Instruction

- Face-to-Face Teaching
 - Instructional Teachers
 - Substitutes
- Classroom Materials
 - Pupil Use Technology and Software
 - Instructional Materials, Trips, and Supplies

Instructional Support

- Pupil Support
 - Guidance and Counseling
 - Library and Media
 - Extracurricular
 - Student Health & Services
- Teacher Support
 - Curriculum Development
 - In-Service, Staff Development and Support
 - Sabbaticals
- Program Support
 - Management/Administration
 - Therapists, Psychologists, Evaluators, Personal Attendants, and Social Workers

Operations

- Non-Instructional Pupil Services
 - Transportation
 - Food Service
 - Safety
 - Student Health and Services
- Facilities
 - Building Upkeep, Utilities, and Maintenance
- Business Services
 - Data Processing
 - Business Operations

Other Commitments

Contingencies

- Budgeted Contingencies

Capital

- Debt Service

- Capital Projects

Out-of-District Obligations

- Public, Parochial, Private, and Charter School Pass-Throughs

- Retiree Benefits and Other

- Enterprise/Community Service Operations

Legal Obligations

Leadership

School Management

- Principals & Assistant Principals

- School Office

Program/Operations Management

- Deputies, Senior Administrators, and Researchers
(Superintendent's Cabinet)

District Management

- Superintendent and School Board

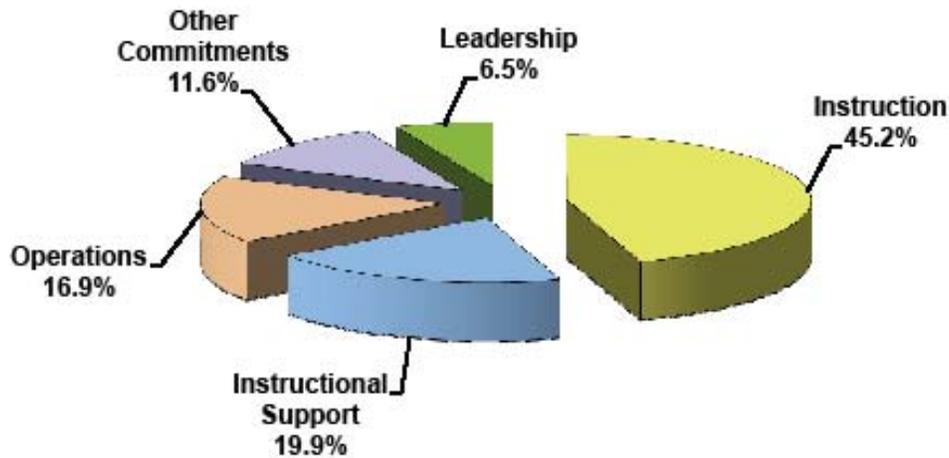

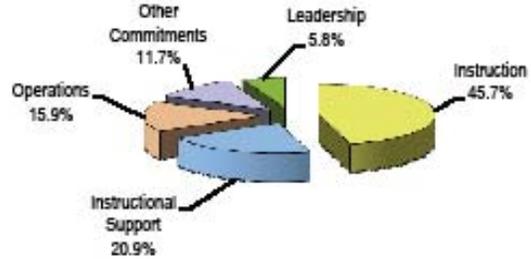

- Legal Services

For each of the above detail functions, there are specific definitions which are used by all Rhode Island school districts. Use of these function definitions will enable consistency in reporting to occur throughout the state. The following tables were provided by the Rhode Island Department of Education through the In\$ite™ financial services program.

Providence School District

**#1 Total Expenditures
(All Funding Sources)
By Five Major Functions
July 2007 - June 2008**

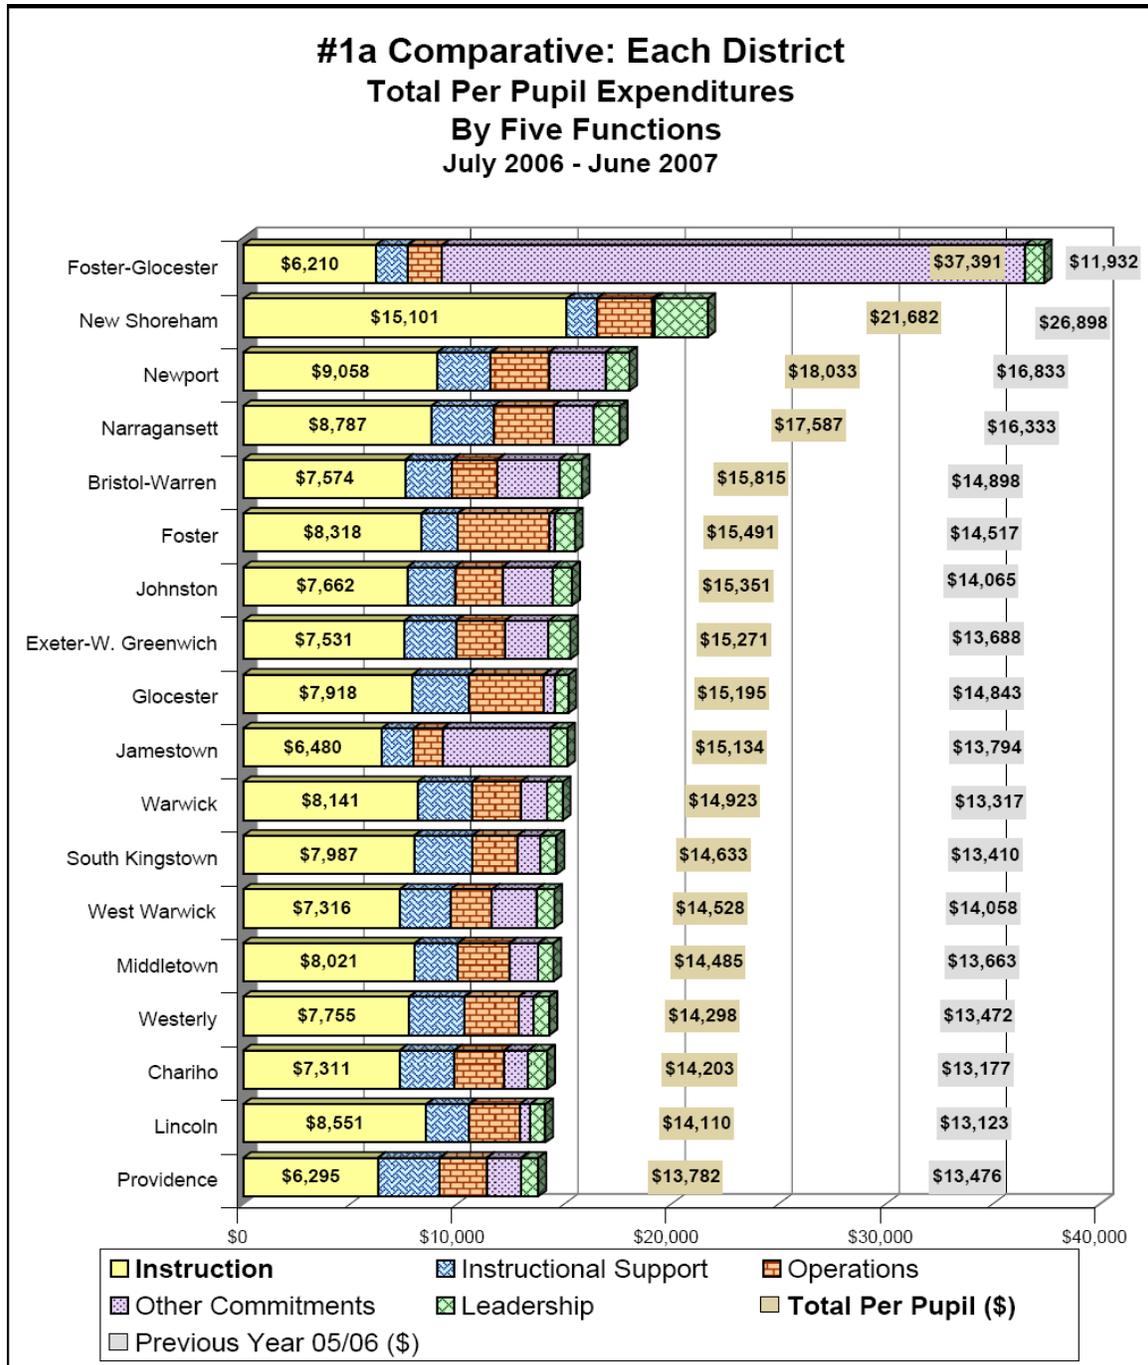

**July 2006 - June 2007
(Previous Year)**

District Enrollment (ADM): 25,986	Amount	Per Pupil	%-To-Total Expenditures
Instruction	\$168,803,065	\$6,496	45.2%
Instructional Support	\$74,197,388	\$2,855	19.9%
Operations	\$63,019,103	\$2,425	16.9%
Other Commitments	\$43,518,861	\$1,675	11.6%
Leadership	\$24,192,673	\$931	6.5%
Total District Expenditures	\$373,731,090	\$14,382	100.0%

Elementary Schools Directory

All numbers in
area code (401)

BAILEY ELEMENTARY SCHOOL

Robert L. Bailey IV Elementary School
Grades: Kindergarten through 5
65 Gordon Avenue (02905)
Principal: Joseph Picchione joseph.picchione@ppsd.org

Tel: 456-1735, 1736

Fax: 456-1786

CAMDEN AVENUE ELEMENTARY - SEE KIZIRIAN

CARNEVALE ELEMENTARY SCHOOL

Anthony Carnevale Elementary School
(formerly Springfield)
Grades: Kindergarten through 5
50 Springfield Street (02909)
Principal: Deborah Bessette deborah.bessette@ppsd.org

Tel: 278-0554

Fax: 278-0556

D'ABATE ELEMENTARY SCHOOL

William D'Abate Elementary School
Grades: Kindergarten through 5
60 Kossuth Street (02909)
Principal: Brent Kerman brent.kerman@ppsd.org

Tel: 456-9416, 9417

Fax: 453-8647

FEINSTEIN ELEMENTARY SCHOOL

ON BROAD STREET

Alan Shawn Feinstein Elementary School on Broad Street
Grades: K through 5
1450 Broad Street (02905)
Principal: Christine Riley christine.riley@ppsd.org

Tel: 456-9367, 9368

Fax: 456-9489

FEINSTEIN ELEMENTARY SCHOOL

AT SACKETT STREET

Lillian Feinstein Elementary School at Sackett Street
Grades: Kindergarten through 5
159 Sackett Street (02907)
Principal: Mercedes Torres mercedes.torres@ppsd.org

Tel: 456-9407, 9408

Fax: 453-8658

FLYNN ELEMENTARY SCHOOL

Edmund W. Flynn Elementary School
Grades: Kindergarten through 5
220 Blackstone Street (02905)
Principal: Joyce Fitzpatrick joyce.fitzpatrick@ppsd.org

Tel: 456-9373, 9374

Fax: 453-8648

FOGARTY ELEMENTARY SCHOOL

Mary E. Fogarty Elementary School
Grades: Kindergarten through 5
199 Oxford Street (02905)
Principal: Steven Olsen steveb.olsen@ppsd.org

**Tel: 456-9381, 9382,
9383**

Fax: 453-8649

FORTES ACADEMY

Charles N. Fortes Academy
Grades: Kindergarten through 5
The Leviton Complex
249 Bucklin Street (02907)
Principal: Lori Hughes lori.hughes@ppsd.org

Tel: 278-0501, 0502
Fax: 278-0503

FORTES ANNEX

Charles N. Fortes Annex
Grades: Kindergarten through 1
65 Greenwich Street (02907)
Principal: Lori Hughes lori.hughes@ppsd.org
Asst. Principal: Roseclaire Buglin roseclaire.buglin@ppsd.org

Tel: 278-2872
Fax: 278-2862

GREGORIAN ELEMENTARY SCHOOL

Vartan Gregorian Elementary School
Grades: Kindergarten through 5
455 Wickenden Street (02903)
Principal: Colin Grimsey colin.grimsey@ppsd.org

Tel: 456-9377, 9378
Fax: 453-8650

KENNEDY ELEMENTARY SCHOOL

Robert F. Kennedy Elementary School
Grades: Kindergarten through 6
195 Nelson Street (02908)
Principal: Gina Picard gina.picard@ppsd.org

Tel: 456-9403, 9404
Fax: 453-8652

KING ELEMENTARY SCHOOL

Dr. Martin Luther King, Jr. Elementary School
Grades: Kindergarten through 5
35 Camp Street (02906)
Principal: Vacant

Tel: 456-9398, 9399
Fax: 456-9497

KIZIRIAN ELEMENTARY SCHOOL

Harry Kizirian Elementary School
(formerly Camden Avenue)
Grades: Kindergarten through 6
60 Camden Avenue (02908)
Principal: Debbie Ruggieri debbie.ruggieri@ppsd.org

Tel: 456-9369, 9370
Fax: 456-9496

LAUREL HILL AVENUE SCHOOL

Laurel Hill Avenue Elementary School
Grades: 2 through 5
85 Laurel Hill Avenue (02909)
Principal: Vacant
Asst. Principal: David Escobar david.escobar@ppsd.org

Tel: 456-9389, 9390
Fax: 453-8653

LAUREL HILL AVENUE ANNEX

Laurel Hill Avenue Annex
Grades: Kindergarten through 2
240 Laban Street (02909)
Principal: Vacant
Asst. Principal: David Escobar david.escobar@ppsd.org

Tel: 456-1783,
Fax: 456-1785

LAURO ELEMENTARY SCHOOL

Carl G. Lauro Elementary School
Grades: Kindergarten through 5
99 Kenyon Street (02903)
Principal: Robin Mathis robin.mathis@ppsd.org
Asst. Principal: Nancy Tobin nancy.tobin@ppsd.org

Tel: 456-9391, 9392
Fax: 456-9246

LIMA ELEMENTARY SCHOOL

Alfred Lima Sr. Elementary School
Grades: Kindergarten through 5
The Leviton Complex
222 Daboll Street (02907)
Principal: Jose Valerio jose.valerio@ppsd.org

Tel: 278-0504, 0505
Fax: 278-0506

LIMA ELEMENTARY ANNEX

Alfred Lima Sr. Elementary Annex
65 Greenwich Street (02907)
Grades: Kindergarten through 1
Principal: Jose Valerio jose.valerio@ppsd.org
Asst. Principal: Roseclaire Buglin roseclaire.buglin@ppsd.org

Tel: 278-2872, 2874
Fax: 278-2862

MESSER ELEMENTARY SCHOOL

Asa Messer Elementary School
Grades: 2 through 5
158 Messer Street (02909)
Principal: Denise Missry-Milburn denise.missry-milburn@ppsd.org

Tel: 456-9401, 9402
Fax: 456-9486

MESSER ANNEX

Asa Messer Annex
Grades: Kindergarten through 2
245 Althea Street (02909)
Principal: Denise Missry-Milburn denise.missry-milburn@ppsd.org

Tel: 456-9441
Fax: 453-8654

PLEASANT VIEW ELEMENTARY SCHOOL

Pleasant View School
Grades: Pre-Kindergarten through 5
50 Obadiah Brown Road (02909)
Principal: Anthony DeAngelis anthony.deangelis@ppsd.org

Tel: 456-9325, 9326
Fax: 453-8656

RESERVOIR AVENUE ELEMENTARY SCHOOL

Reservoir Avenue School
Grades: Kindergarten through 5
156 Reservoir Avenue (02907)
Principal: Socorro Gomez-Potter socorro.gomez-potter@ppsd.org

Tel: 456-9406,
456-8664
Fax: 453-8657

SOUTHSIDE ELEMENTARY - SEE YOUNG**SPRINGFIELD ELEMENTARY - SEE CARNEVALE****VEAZIE STREET ELEMENTARY SCHOOL**

Veazie Street Elementary School
Grades: Kindergarten through 5
211 Veazie Street (02904)
Principal: Susan Chin susan.chin@ppsd.org

Glossary of Terms

General Terms

Accrual method of accounting	Method of accounting in which revenues are recorded when they are due to be received and expenditures are recorded when then are obligated to be paid.
Balanced Budget	Budgeted revenues equal budgeted expenditures.
Board of Contract & Supply	City board that approves all city purchases exceeding \$5,000.
Capital Plan	Long term plan for capital projects.
Carnegie	Private foundation grant; funds used to redesign high school curriculum.
City Appropriation	Portion of local budget from the City of Providence.
City Charter	Code of ordinances that govern the City of Providence and all city departments.
CRP (Consolidated Resource Plan)	The Consolidated Resource Plan (CRP) is a comprehensive proposal that outlines the way each school district in Rhode Island will spend millions of dollars in state/federal funds annually.
DeWitt Wallace	Private foundation grant; funds used to train aspiring school administrators, and improve leadership skills.
Gates	Private foundation grant; used to build technology infrastructure, and to improve math and literacy.
General Assembly	Legislative branch of Rhode Island government.
IDEA Part B	Federal entitlement; Special education students are the only students eligible to take advantage of these funds. They were designed to cover the excess cost of special education students, and may be used for any purpose that provides services or supplies to special education students.
In\$ite	Financial reporting system used by the RI Department of Education to categorize expenditures for each district.

Literacy Set Aside	Restricted state aid; funds used to improve literacy, primarily at the elementary level.
Local Budget	Operational budget for the district with revenues from the State and City.
Master Lease	Capital program that allows all city departments to purchase capital equipment.
Non-Local Budget	Budget with revenues from the federal government and private foundations.
Perkins	Federal entitlement; Funds used for vocational, technical, and school-to-work programs.
PPBA (Providence Public Building Authority)	City agency that issues bonds for capital projects and school construction projects.
PPSD	Providence Public School District
Professional Development Set Aside	Restricted state aid; funds used to train teaching staff.
PTU (Providence Teachers Union)	Bargaining unit for all teachers in the Providence School Department.
Reading First	Federal entitlement; Funds used to improve literacy in elementary schools.
Restricted State Aid	Portion of non-local funds received from the State of Rhode Island that must be used for a specified purpose (literacy & professional development).
RIDE (Rhode Island Department of Education)	State agency that monitors each school district in the State of Rhode Island.
School Board (School Committee)	9 member board that governs the policies of the school department.
School Lunch Program (Food Service)	Reimbursable grant; funds used to operate and maintain district school lunch program.
Section 619 Preschool	Federal entitlement; Special Education funds for early childhood students with special needs.
State Aid	Revenue; education aid from the State of Rhode Island.
Title I	Federal entitlement; The District uses Title I funds in all the elementary and middle schools in the district under a school-wide model. Each school receives a per pupil allocation based on the allocation from the government, and their poverty level. These funds must be supplemental, and may not be used to purchase any position, service, or activity the district is required to provide to the students.
Title II	Federal entitlement; These funds may be used for professional development for teachers in any of the core curriculum areas. The district has traditionally used these funds for professional development in Mathematics and Science. Included in Title II funding this year is the former Class Size Reduction funding. These are used to support literacy coaches in the elementary schools.
Title II Technology	Federal entitlement; professional

	development funds to train teachers in technology.
Title III	Federal entitlement; The amount of funding the district receives in this category of aid depends on the number of recent immigrant students enrolled in the district's schools. These funds may be used to provide staff and enhanced materials and supplies for the district's immigrant population.
Title IV	Federal entitlement; These funds are provided to the district to provide student awareness in substance abuse. The district currently funds substance abuse counselors in each secondary school with this entitlements.
Title V	Federal entitlement; The Federal Government combined converted Title VI, innovative programs into Title V, which may be used for extended day programs and alternative programs. The Department currently funds substance abuse counselors, alternative programs, and other innovative programs from these funds.
Unrestricted State Aid	Portion of local funds received from the State of Rhode Island that can be used to support the general operation of the school district.

Account Codes

Automobile Allowance	Amounts reimbursed by the District to any employee qualifying for auto allowance on the basis of District policy.
Student Transportation	Owners who operate, under a contract with the local school board to transport pupils to and from school and other school-related activities such as athletic events, field trips, etc.
Other Dues and Fees	Other dues and fees paid by the District.
Other Services	Professional services such as architectural, engineering, medical, financial advisory, bank services, management, consultants, insurance/casualty consultants, educational consultants, and related services.
Postage	Shipping charges such as FedEx, DHL, UPS, etc. and postage charges such for District activities.
Advertising	Expenditures for announcements in professional publication, newspapers, or broadcasts over radio and television.
Subscriptions and Periodicals	Expenditures for periodicals and subscriptions.

Printing	Expenditures for job printing, usually according to specifications of the District. This includes designing and printing forms and posters, as well as District publications.
Tuition	Tuition paid to other school districts within the state.
Maintenance and Repairs – Non-Student Transportation Vehicles	Contracts and agreements covering the upkeep of non-student transportation vehicles.
Copier Lease and Maintenance	Contracts and agreements covering and upkeep of buildings and non-technology equip.
Grounds keeping Services	Maintenance of fields & grounds adjacent to schools.
Wireless Communications	Expenditures to an outside company for wireless communications.
Laundry and Cleaning	Payment for laundering and cleaning uniforms, clothes and rugs.
Building Improvements	Cost of major remodeling and related costs including complete replacement of roofs, heating and ventilation systems, electrical systems for existing buildings.
Renting Land and Buildings	Expenditures for leasing or renting land and building for both temporary and long-range use by the District.
Snow Plowing Services	Contracted snow plowing services.
Travel and Training	Expenditures for transportation, meals, hotel, and other expenditure/expenses associated with travel for the District.
Auditing/Actuarial Services	Auditor or public examiner for services rendered in examining and reporting on the financial affairs of the District.
Medical Fees	Professional medical doctor services that support the operation of the District.
Dental Fees	Professional dentistry services that support the operation of the District.
Consultants	Payments to non-employees for services rendered.
Alarm and Fire Safety Services	Expenditures for alarm and fire safety services and related supplies and equipment.
Data Processing Services	Services for data entry, formatting, and processing services other than software programming.
Custodial Services	Contracted janitorial and custodial services.
Moving and Rigging	Expenditures for moving and rigging services and related supplies and equipment.

Supplies

Textbooks	Expenditures for textbooks.
Reference Books	Expenditure for reference books.
Book Repairs	Expenditures for book repairs.
Athletic Supplies	Expenditures related to supplies for athletic activities including uniforms for athletics.
Non-Public Student Textbooks	Purchases of textbooks for providence residents.
Testing Materials	Materials used to test students attending non-public schools.
Wearing Apparel	Employees' uniforms, shoes, and hats. Badges are also included in this account.
General Supplies and Materials	Expenditures for instructional materials for the operation of a District for classroom.
Library Books	Expenditures for library books.
Electrical Supplies	Expenditures for electrical services and supplies from a public company or supplier.
Plumbing and Heating Supplies	Expenditures for plumbing and heating services and supplies from a public company or supplier.
Glass	Expenditures for glass services and supplies from a public company or supplier.
Medical Supplies	Expenditures for medical supplies for the operation of a District.
Lumber and Hardware	Expenditures for lumber and hardware services and supplies from a public company or supplier.
Paint	Expenditure for paint services and supplies from a public company or supplier.
Technology Software	Expenditures for the initial costs, additional costs for the new modules, replacement, maintenance and or support agreements, and modifications costs associated with District licensed or purchased technology software.
Materials for Snow and Ice Removal	Expenditures for materials for snow and ice removal from a public company or supplier.

Special Items

Property and Liability Insurance	Insurance coverage in accordance with requirements of statutes which include the following types: General liability, civil rights/personal injury, malpractice, property liability, auto liability, and surety bonds.
Employee Legal Services	Employee benefit
Claims and Settlements	Claims and settlements awarded to legal opponents, claimants, and settlements, etc. Excludes legal fees awarded.
Dental Insurance	Employer's share of dental insurance premiums.
Wellness Program	Employer's share of wellness program premiums.
Transfer to Self-Insurance Fund	Includes active health insurance.
Laborers International Union of North America National Pensions Fund	Amounts reimbursed by the District to any employee qualifying for the union benefits and pension on the basis of District policy.
Life Insurance	Employer's share of life insurance premiums.
State Retirement	This account is charged with the employer's contributions for State Retirement Benefits.
City Retirement	Employer's share of any private pension payment paid by the District, including the amount paid for employees assigned to federal programs.
Workers Compensation	Worker's compensation payments to employees from self-funded programs.
Workers Compensation – Medical Fees	Medical costs of employees injured at work.
Unemployment Insurance	Unemployment insurance for school employed personnel.

Equipment

Furniture and Fixtures	Expenditures for the initial cost associated with District office furniture and fixtures used in the Central office and in Classrooms.
Equipment	Expenditures for the initial costs associated with District machinery and equipment.
Technology Related- Hardware	Expenditures for the initial costs associated with District technology-related hardware with a life longer than one year.

Utilities

Telephone	Expenditures for local and long distance telephone services.
Electricity	Expenditures for electric utility services including lighting, power, and heat, including fees for rented or contracted lighting from a private or public utility company.
Water	Expenditures to a utility company for water services
Propane/Natural Gas	Expenditures for propane or natural gas utility services from a private or public utility company.
Fuel Oil	Expenditures for fuel oil services and supplies from a private or public utility company, or service station or supplier.
Sewage/Cesspool	Expenditures to an outside for sewage and cesspool services.

In\$ite Terms

Instruction

Instructional Teachers (111)

Salaries and related employment costs for teachers who interact with pupils face-to-face, or via electronic means. This includes classroom, hospital and homebound teachers. Includes the cost of third-party instructional services for district students (e.g., advanced college courses, or specialized classes provided by another district). Includes the cost of travel for hospital, homebound, and itinerant teachers. Includes *only* the teaching portion of an expenditure for department chairpersons who also teach. Includes driver education teachers if taught during normal school hours, offered without a fee, and restricted to students (otherwise map to *Extracurricular*). Also includes music instruction (i.e., Band) that is taught during the day as part of the curriculum and tutoring (i.e., SAT, ESL).

Substitutes (112)

Substitutes who substitute for teachers under 111 category unless they are substituting for staff development, which should be mapped to Staff Development (222) (Currently reported under Form 31 line item 10205). Substitutes not in the classroom (Library, Cafeteria Monitor, etc.) should be mapped as appropriate.

Instructional Paraprofessionals (113)

Paraprofessionals who spend the majority of their time in the classroom or with the teacher. Does not include one-to-one paraprofessionals whose primary responsibility is that of physical attendants which should be mapped to Therapists et al (232). If primary responsibility is instruction, include here.

Excludes: *non-instructional* paraprofessionals, aides and graders (for *non-instructional* paraprofessionals, aides and graders *assigned to teachers* map to *In-Service, Staff Development and Support*; for *all other* map to appropriate detail function under *Instructional Support, Operations or Leadership*)

Pupil-Use Technology and Software (121)

Includes technology and software that pupils use and the salaries and related employment costs of staff who are dedicated to support technology instruction, pupil-use network management, or computer lab support personnel. Technology instruction of students is included in face-to-face teaching. Technology instruction of professional and support staff personnel is included in the appropriate **In\$ite** detail function. The equipment could be located in the classroom, in computer labs, or connected by terminals to a central site. Include expenditures for dedicated telephone lines, maintenance and repair, and service contracts. Includes purchases and/or lease payments for pupil use computer equipment. Technology and software for purposes other than pupil-use should be mapped to the detailed function that most closely matches its intended use. Does not include printer paper, ribbons, diskettes, etc, which should be included in Instructional Materials et al (122). Includes all computer hardware and software in the classroom only. Computer hardware and software used in the office or administrative offices are mapped to the department's appropriate In\$ite detail function.

Instructional Materials, Trips and Supplies (122)

Includes the cost of instructional materials and supplies and staff dedicated to managing the selection of those materials and supplies including textbooks, paper, lab materials, test forms, workbooks, chalk, markers, maps and charts. Also includes the cost of classroom instructional equipment other than pupil use computer equipment that is mapped to 121 above. Test related research and development and the personnel involved in that process

should be mapped to **InSite** detail function *Curriculum Development (221)*. The cost of tests themselves is mapped to this function. Also includes costs of field trips that are instruction related. Non-instructional trips (band, glee club, etc.) should be mapped to *Extracurricular (213)*.

Includes classroom furniture and equipment.

Instructional Support

Guidance and Counseling (211)

Includes the salaries and related employment costs of guidance counselors and clerical support that provide counseling to the general student population. Also includes field support coordinators that work directly with guidance counselors, and can include guidance and counseling administrators in the central office. School-to-career staff, if not doing face-to-face instruction, are coded here.

Excludes attendance functions and health services (map to *Student Health and Services (214)*).

Library and Media (212)

Includes the salaries and related employment costs of Librarians, Media Technicians and clerical support. Also includes the cost and repair of media equipment, library books, and general media and library office costs. Also includes field support coordinators that work directly with librarians and media personnel, and administrators in the central office. Includes library software and computers housed in the library.

Extracurricular (213)

Includes the salaries and related employment costs of coaches and staff related to sports, clubs and other extracurricular activities. Also includes cost of equipment, related facilities and utilities, and transportation. Includes non-instructional field trips (band, glee club, drama club, etc.) Excludes instructional field trips, which are mapped to *Instructional Materials, Trips and Supplies (122)*. Also excludes music instruction trips (i.e., band) that are taught during the day as part of the curriculum, which should be mapped to *Instructional Materials, et al (122)*.

Student Health and Services (214)

Includes health services as well as other student services such as attendance and report cards.

Includes the salaries and related employment costs of nurses (even if face-to-face teaching occurs) and medical staff. Includes community outreach services directed at the families of students, and attendance services (Attendance Officer). Also includes data processing expense related to attendance, scheduling and report cards.

Curriculum Development (221)

Includes the salaries and related employment costs of staff assigned to improving curriculum or teaching curriculum concepts to teachers. If a Curriculum Department exists, this detail function includes all of the costs of that department (including secretaries, clerks, and curriculum materials). Includes expenditures for purchased curriculums and purchased curriculum services. Should include a percentage of cabinet-level (central office) Asst. Superintendents, Curriculum Development Directors, etc. who spend a portion of their time on curriculum development. ***All texts and supplies related to classroom instruction (including piloted texts) must be mapped to Instructional Materials et al (122).***

In-Service, Staff Development and Support (222)

The cost of In-Service Training and other types of staff development (provided either in-house or by outside providers). Includes teacher mentoring program costs; teacher trainer costs; and non-instructional paraprofessionals, aides and graders assigned to teachers. Also includes substitute teachers used to cover teachers who are attending In-Service or Staff Development, teachers who train other teachers (except for technology), and gifted & talented in non face-to-face. Also includes department head stipends and the value of non-teaching periods for this purpose.

Sabbaticals (223)

Sabbaticals should be mapped as appropriate, i.e., Teachers, Business Operations, Principals & Assistant Principals.

Program Development/Management (231)

Includes the salaries and related employment costs of staff who develop, monitor, and maintain defined categorical programs (e.g., Special Education Director, Chapter 1/Title I or Elementary Education Director). Includes office costs and clerical costs associated with the administrator's activities. This may include, for example, the staff costs of maintaining an IEP program for Special Education students and the clerical effort to maintain the records for IEPs. Examples include COZ, Drug Free, Literacy and Children Crusade Coordinators and clerical support, and various grant coordinator positions.

Therapists, Psychologists, Evaluators, Personal Attendants and Social Workers (232)

Includes the salaries or contract fees and related employment costs of evaluators, social workers, therapists, psychologists, or other type of counselor serving specific needs of a defined program (e.g., Special Education), regardless of funding source. This detail category excludes the cost of counseling for the general population of students that is not related to a specific program (see Guidance and Counseling). Includes the cost of personal student attendants. Does not include one-on-one paraprofessionals **whose primary responsibility is instructional assistance.**

Operations

Transportation (311)

Includes all costs of transportation. This may include bus driver salaries and related employment costs, or transportation contracts, staff who implement all or a portion of the transportation services, bus monitors, and staff who implement all or a portion of bus monitor services e.g., Business Managers. Also includes the maintenance and operating costs associated with bus operations. Does not include extracurricular transportation (map to Extracurricular- 213) or transportation for tuition pupils (i.e., Vocational Education, Special Education & Non-public (out-of-district)), which should be mapped as Pass Throughs (432). Crossing guards are mapped to Safety (313).

Food Service (312)

Includes all costs of food service operations. This may include central and on-site food preparation salaries and related employment costs, or food service contracts, and administrators who implement all or a portion of food services; e.g., Business Managers. Does not include expenses related to Vocational food service programs.

Safety (313)

Includes the cost of safety personnel (salaried or contracted), and the cost of safety devices and maintenance of safety equipment in schools and in buses. Includes crossing guards, school security personnel (including police details relating to school functions) and related equipment (fire alarms, security systems). Does not include bus monitors that are mapped to Transportation (311).

Building Upkeep, Utilities, and Maintenance (321)

The costs associated with running the day-to-day operations of facilities. Includes cost of utilities, vehicle maintenance insurance, building & contents and property insurance and fixtures. Desks, chairs & furniture should be mapped to the appropriate In\$ite function based on who is utilizing them. Building leases are mapped here.

Data Processing (331)

Includes the cost of the data processing department (excludes student use technology, see Pupil Use Technology and Software- 121). Includes salaries and related employment costs, equipment cost, and DP maintenance contracts. Excludes business services.

Business Operations (332)

Includes the cost of business offices (e.g., payroll, human resources, accounting and finance, procurement). Includes interest payments on revolving lines of credit used to fill funding gaps between receipt of tax revenues. Includes salaries and related employment costs, office expenses, and all other departmental costs. Excludes any pro-rated portion mapped to transportation (311) and/or food service (312).

Other Commitments

Budgeted Contingencies (411)

The amount of the budget reserved for Contingencies or undesignated.

Debt Service (421)

Includes the cost of principal and interest payments made on debt for bonded capital projects (except for revolving credit, see Business Operations). Typically includes all expenditures in a district's Debt Service Fund. Use this category only if bonded debt service is currently carried in your budget.

Capital Projects (422)

Includes capital expenditures for land, buildings, and improvements. Typically includes all expenditures in a district's Capital Projects Fund. If Capital Projects Fund expenditures include furniture and equipment, these expenditures should be mapped as appropriate e.g., Instructional Materials, Transportation, Food Service, Business Operations, etc. Does not include capital projects for wiring and other student-use technology related activities that are included in Pupil Use Technology (121). Use this category only if this cost is carried in the district budget.

Parochial, Private, Charter, and Public School Pass-Through (431)

Includes dollars that are passed-through the public school district to parochial, private, charter, and public schools. Examples include nonpublic textbooks, special and vocational education out-of-district tuition and the related transportation costs, all grant appropriations for non-public schools and basic adult education (i.e., G. E. D., Diploma Plus Programs, etc. - Form 31 line item 31312). Other types of continuing education should not be included here. Excludes ***district-contracted*** services of private schools for Special Education pupils. For example, Occupational Therapists and Physical Therapists for non-public schools, which are mapped to Therapists et al (232). Includes educational and special needs supplied by other sources where the day-to-day responsibility for the student is outside the district. **Also includes any costs incurred by the district for pupils receiving their basic instruction through home schooling.** All charter schools, even those operated within a local school district, are included here (include their entire allocation as a pass through).

Retiree Benefits and Other (432)

Includes cost of retirement benefits paid to retirees out of current operating funds. The cost of pension funding for current employees is allocated as a related employment cost to other functional categories. Includes severance, early retirement, payout of unused sick & vacation days and supplemental retirement payments.

Enterprise and Community Service Operations (433)

Includes activities that are financed and operated in a manner similar to private business enterprises when the stated intent is that the costs are financed or recovered primarily through user charges. One example could be a bookstore. Includes activities concerned with providing community services.

Examples include a community swimming pool, a recreation program for the elderly, and a child care center for working mothers. Also includes Adult Continuing Education (primarily Self-sustaining - Form 31 line item 70870). Does not include School Lunch.

Claims and Settlements (441)

Specific litigation awards or settlement of obligations resulting in the outlay of cash. Includes court awards and grievance settlements that extend beyond a current fiscal period.

Leadership

Principals and Assistant Principals (511)

Includes the salaries and related employment costs of principals and assistant principals who work in schools. A principal usually has responsibility of being the instructional leader for a specific school or schools. Includes lead teachers in schools without principals. Any time spent by these individuals in face-to-face teaching (scheduled) is mapped to *Instructional Teachers* (111).

School Office (512)

Includes the salaries, and related employment costs for support staff for the principal and assistant principals. Also includes the other expenses related to the Principals & Assistant Principals such as supplies, copier lease & maintenance agreements, equipment, postage, fees & dues, etc. Graduation expenses and honors programs are also included here.

Deputies, Senior Administrators, Researchers and Program Evaluators (521)

Includes the office costs and salaries and related employment costs of deputy or assistant superintendents and senior administrators. The personnel included in this **In\$ite** function are thought of as the central office. Any time spent by these individuals performing other In\$ite functions should be mapped accordingly based upon the percentage of time devoted to these other activities.

Superintendent and School Board (531)

Includes the salaries and related employment costs of the superintendent, the school board, and the office and support staff costs that support these functions. Also includes “umbrella” and “errors and omissions” insurance costs.

Legal (532)

Includes the salaries and related employment costs of the Legal Department staff. Also includes the office and support staff costs that support this function. Includes cost of contracted legal services.
